Educational System Of Israel:

The Educational System of Israel Nellie Mary Apanasewicz, Seymour Michael Rosen, 1971 The Educational System of Israel Nellie Mary Apanasewicz, 1978 **Israel, a Modern Education System** Randolph L. Braham, United States. Office of Education, 1966 Study of the educational system in Israel with particular reference to secondary education and teacher training includes historical and geographical aspects Bibliography pp 175 to 181 **The Educational System of Israel** Yaacov Iram, Mirjam Schmida, 1998-06-25 Israel witnessed rapid changes during the last five decades of its existence as an independent state Geopolitical developments particularly the continuous conflict with its Arab state neighbors affected all spheres of life including education Demographically changing patterns of Jewish immigration has transformed the Jewish population several times from predominantly European in the late 1940s to Middle Eastern during the late 1950s and 1960s and back to European following mass immigration from the former Soviet Union in the late 1980s and 1990s These demographic changes including waves of immigrants from Ethiopia have raised issues of equality in educational policies The authors of this book provide historical background and analyses of Israel's educational system that they believe is on the crossroads of still another transformation as a result of the prospects of peace in the region Israel's Education System Joseph Magnet, 2016 Israel's education system disadvantages its Arab citizens I show how this occurs and why it is in both the Jewish and Arab interests to address this problem I describe the structure of Israel's education system and its convoluted funding mechanisms particularly the processes which bring private funds into the system I describe unequal funding for the Jewish and Arab sectors to the extent the published data allows I show that as there are less private funds in Arab hands increased reliance on private funds reduces the quality of education offered to Arab students compared with Jewish counterparts and widens the performance gaps between them At the present level of privatisation the poorest Arab municipalities lack sufficient revenue to maintain adequate schools and educational experiences for their students I show that decisions to increase the significance of private funds in the system and downloading central government functions to local school administrations has intensified and will continue to intensify the unequal status between Jews and Arabs in Israeli society I defend the conclusion with evidence of unequal inputs into the educational system and various calculations of performance outputs of Jewish and Arab students I consider the special situation of Arab women and how traditional pressures as well as governmental programming obstruct their ability to reach their full educational and social potential in Israeli society I assess Israel's education system in the context of how Israel views itself and also as reported to various United Nations bodies pursuant to Israel's international obligations I explain why Israeli strategies to assist its Arab minority to achieve its full potential in Israeli society would be in Israel's self interest and in the Jewish self interest I conclude with specific recommendations for legislative and administrative reforms to bring the educational system into line with what Israel says it wants to achieve I show that the suggested changes will help close the performance gaps between Arab and Jewish

The Political Economy of Israel's Occupation Shir Hever, 2010-08-06

The Israeli occupation of the Palestinian territories since 1967 has many important economic aspects that are often overlooked In this highly original book Shir Hever shows that understanding the economic dimensions of the occupation is crucial to unravelling the Israeli Palestinian conflict Hever rejects the premise that Israel keeps control over Palestinian territories for material gain and also the premise that Israel is merely defending itself from Palestinian aggression Instead he argues that the occupation has reached an impasse with the Palestinian resistance making exploitation of the Palestinians by Israeli business interests difficult but the Israeli authorities reluctant to give up control With traditional economic analysis failing to explain this turn of events this book will be invaluable for students activists and journalists struggling to make sense of the complex issues surrounding Israel's occupation
