Genocidal Healer:

The Genocidal Healer James White,2026-08-27 Surgeon Captain Lioren was a perfectionist who expected similarly high standards from everyone who worked with him But on a First Contact mission to a planet where plague had reduced a peaceful civilisation to barbarism and war Lioren s perfectionism was his undoing In his zeal to find a cure for the plague he unwittingly caused the death of the entire planetary population Lioren s guilt led him to seek the ultimate penalty death But instead he was sent to the Sector General hospital as a lowly trainee in the psychology department But when an alien and the first of its kind to reach Sector General needed help he would speak to no one but Lioren And before the alien can be cured Lioren must do the impossible forgive himself

The Rise and Fall of American Science Fiction, from the 1920s to the 1960s Gary Westfahl,2019-10-04 By examining important aspects of science fiction in the twentieth century this book explains how the genre evolved to its current state Close critical attention is given to topics including the art that has accompanied science fiction the subgenres of space opera and hard science fiction the rise of SF anthologies and the burgeoning impact of the marketplace on authors Included are in depth studies of key texts that contributed to science fiction s growth including Philip Francis Nowlan s first Buck Rogers story the first published stories of A E van Vogt and the early juveniles of Isaac Asimov Arthur C Clarke and Robert Heinlein

Space for Peace Richard Howard,2021-02-01 Science fiction might not be the first thing that springs to mind when we think of Irish literature But in the post war period in Belfast two authors Bob Shaw and James White began producing science fiction stories eventually selling them to international markets and gaining the respect of luminaries such as Arthur C Clarke Brian Aldiss and Stanley Kubrick Although lauded in the international science fiction scene for their innovations in the genre Shaw and White s work has been relatively ignored within Irish Studies This book connects the emergence of science fiction in Belfast with the position of the city as the locus of technological development on the island of Ireland and the development of a corresponding technological imaginary Breaking new ground in the study of Irish modernity Richard Howard draws parallels between the narratives of Shaw and White and the persistent influence of historical narratives embodied by the two traditions paradigm in the region as well as exploring the figure of the alien both in science fiction and in the history of Northern Ireland He also considers the works of Shaw and White as utopian gestures against the backdrop of the Irish Troubles finding both repressive and redemptive elements therein The book makes an important contribution to the growing conversation about Irish science fiction and our understanding of modernity in Ireland

Pederson, 1996 Concise discussions of the lives and principal works of prominent science fiction authors written by subject experts Isaac Asimov's Science Fiction Magazine, 1992 Alien Theory Patricia Monk, 2006-06-15 From the early days of pulp magazines to contemporary works of science fiction the subject of the alien has been a fertile and enduring if not also the most vital element of the genre In Alien Theory author Patricia Monk asserts that the creation of the alien in short fiction contributes substantially to humanity's understanding of its present status and future potential in the universe By employing a Jungian and archetypal approach to these stories Monk attempts to direct the attention of readers to the significance of the vast body of imaginative fiction about the alien arguing that studying the alien will reveal why this archetype is necessary in the development of humanity's understanding of its own intrinsic nature as a sapient being When a science fiction writer writes about aliens Monk asserts he or she is saying something that can and should be taken seriously by readers Furthermore it is being expressed in a particular story telling mode that deserves to be treated with respect By discussing the creation of the form of the science fictional alien its psyche and the context in which aliens and humans interact Monk brings into focus a topic that has not been given the rightful discussion it deserves In addition to examining the alien in the science fiction short story novella and novelette Monk evaluates its role in pre postmodernist and postmodernist criticism and theory The author also draws on relevant writings by editors writers and fans including editorial letter columns and reviews to place the stories in the context of science fiction By drawing on all of these sources Alien Theory brings into focus a topic that will be of interest not only to academics and students but also to the general reader **Up Through an Empty House of Stars** David Langford, 2003 At last Up Through an Empty House of Stars brings together the best of the never before collected SF reviews and articles that helped build David Langford's towering reputation since 1980 Complementing the review columns collected in The Complete Critical Assembly and the knockabout essays and squibs in The Silence of the Langford this volume's 100 glittering selections mix serious critical insight with the inimitable Langford wit In 2002 David Langford won his sixteenth Hugo award as Best Fan Writer for critical and humorous commentary on SF In the same year his occasionally scandalous SF newsletter Ansible won its fifth Hugo Langford also received the 2001 Hugo for best short story and the 2002 Skylark Award Here he shines a unique light on classics like Ernest Bramah G K Chesterton Robert Heinlein and Jack Vance and analyses major SF and major clunkers and minor eccentrics of the 1980s 1990s and early 2000s continuing to the latest by such current stars as Gene Wolfe and China Mi ville Plus witty asides on crime fiction and its SF links gleeful examination of writing so bad it s
