Region Simon Richards, Robert Schmidt III, Cagri Sanliturk, Falli Palaiologou, 2023-07-28 This book explores how the concept of region has evolved over time and shaped architectural culture and practice It questions what the words region and regional mean for architecture cities and landscapes past and present and speculates on the forms they might take in the future Region is explored in many thematic guises as a real geographical site of evolving socio economic activity as a mythical locus of enduring value as a gatekeeper of indigenous crafts and vernacular techniques as a site of architectural and artistic imagination as a repository of contested conflicted and mobile identities The contributing chapters take these themes from the theoretical and literary page through to architectural and urban practice and from the scale of the domestic hearth through to the ocean archipelago and international law enriching the long standing trope of viewing architectural regionalism purely as a matter of style Curated

into four key thematic areas Theorised Regions Contested Regions Heritage Regions and Future Regions the book incorporates the values concerns and approaches of a truly diverse international community of scholars curators and practitioners as well as the design work of international students tasked to explore what region means to them *Geoffrey Bawa - A Conscious Perception* Nivi Ann Monsy,2015-04-20 This book is all about giving the readers a peek view into the life of Geoffrey Bawa Sri Lanka s most famous architect a book that reveals an insight into his work through his most famous projects accompanied by beautiful hand drawn illustrations Alluring and simply authentic these self narrative illustrations are a result of a personal experience This book will give readers an understanding of how successfully Geoffrey Bawa had inculcated spaces vistas and landscape with that of the built environment bringing about a touch of Modern Tropism and fusing it together with the rich culture and traditions of Sri Lanka **Architecture, Power and National Identity** Lawrence Vale,2014-05-01 The first edition of *Architecture Power and National Identity* published in 1992 has become a classic winning the prestigious Spiro Kostof award for the best book in architecture and urbanism Lawrence Vale fully has fully updated the book which focuses on the relationship between the design of national capitals across the world and the formation of national identity in modernity Tied to this it explains the role that architecture and planning play in the forceful assertion of state power The book is truly international in scope looking at capital cities in the United States India Brazil Sri Lanka Kuwait Bangladesh and Papua New Guinea Travel, Space, Architecture Jilly Traganou,Miodrag Mitrašinović,2009 *Travel Space Architecture* defines a new theoretical territory in architectural and urban scholarship that frames the processes of spatial production through the notion of travel The book presents seventeen key case studies that range from interrogations of architectural travel and notions of belonging and nationhood to challenging established geopolitical hierarchies *Anjalendran* David Robson,2014-01-21 This beautifully illustrated book showcases the works of one of Sri Lanka s most influential architects Anjalendran an ethnic Tamil and visionary artist During the past 25 years of civil war in Sri Lanka Anjalendran has stayed on creating architecture that has attracted interest across the entire Indian subcontinent In *Anjalendran* David Robson explores this unique man and his uncommon vision Anjalendran s buildings have a simple directness and although totally modern in spirit they acknowledge the rich design traditions of Sri Lanka Whether working with ample budgets or at rock bottom cost like his SOS Children s Village orphanages his work focuses not only on creative buildings but a la Frank Lloyd Wright also their landscaping furniture and decoration Just as interesting as the architecture is the process by which Anjalendran works from home never employing more than four student assistants with no office no secretary no car and no cell phone He operates without a bank account and has never signed a contract with either a client or a builder With stunning color photographs plan details and behind the scenes insights Anjalendran sheds light on the works of this exceptional man Bawa: the Sri Lanka Gardens David Robson,2009-03-24 Geoffrey Bawa s architectural work is well documented but less attention has been paid to his work on gardens This book focuses on his two most famous

gardens Lunuganga on his own estate and the lesser known garden he fashioned for his brother Bevis Evolved over several decades the gardens and their outbuildings and sculpture represent high points of all encompassing tropical design This book begins with a largely photographic overview of Sri Lanka s natural features showing the varied palette of landscapes that inspired Bawa s sensitive treatment of architecture At the very heart of the book is an intimate portrait of two exquisitely detailed gardens and the personalities that brought them into being But it is also a story about the nature and landscape of an island of exceptional beauty As such the book has something to offer followers of Geoffrey Bawa tropical garden enthusiasts and to all those seeking a photographic portrait of Sri Lanka
