Geography Of Famine

**Declan Curran, Lubomyr Luciuk, Andrew
Newby**

Geography Of Famine:

The Geography of Famine William A. Dando,1980 Describes famine from a historical and spatial perspective and suggests that natural factors cause crop failures but humans cause famines famines are man made Case studies of famines in England India and Russia are included as well as discussion of changing food procurement and production methods and the effects of technology and population growth on relative food supply Famine B. Currey,G. Hugo,2012-12-06 Famine in the Focus of Geography A. Holcombe,1987 **The Geography of Hunger** Josué de Castro,1952 Food and Famine in the 21st Century William A. Dando,2012-02-13 This comprehensive two volume encyclopedia examines specific famines throughout history and contains entries on key topics related to food production security and policies and famine giving readers an in depth look at food crises and their causes responses to them and outcomes Famines have claimed more lives across human history than all the wars ever fought This two volume set represents the most comprehensive study of food and famine currently available providing the broadest analysis of hunger and famine causes as well as a detailed examination of the ramifications of cultural and natural hazards upon famine Volume one focuses upon 50 topics and issues relating to the creation of hunger and famines in the world from 4000 BCE to 2100 including an overview of how agriculture has evolved from primitive hunting and gathering that supported limited numbers of people to a worldwide system that now feeds over seven billion people Volume two entitled Classic Famines begins with famines of the past from 4000 BCE to 2100 CE includes ten classic famine case studies and concludes with predictions of famines we could see in the 21st century and beyond

Famine in Peasant Societies Ronald E. Seavoy,1986-06-24 In this controversial study Seavoy offers a new approach to the problem of periodic peacetime famine based on the actual behavior of peasants He maintains that it is possible to increase per capita food production without massive and inappropriate technological inputs Seavoy shifts the focus from modern development economics to a cultural and historical analysis of subsistence agriculture in Western Europe England and Ireland Indonesia and India From his survey of peasant civilization practices in these countries he generalizes on the social values that create what he terms the subsistence compromise In all of the ages and culture Seavoy finds a consistent social organization of agriculture that produces identical results seasonal hunger in poor crop years and famine conditions in consecutive poor crop years He argues that economic policies have failed to increase per capita food production because economists and government planners try to apply market oriented policies to populations that are not commercially motivated Once they understand the subsistence compromise policy makers can take appropriate political action Famine Sinead Tynan,1995 **Famines in European Economic History** Declan Curran,Lubomyr Luciuk,Andrew Newby,2015-04-24 This volume explores economic social and political dimensions of three catastrophic famines which struck mid nineteenth and early twentieth century Europe the Irish Famine An Gorta M r of 1845 1850 the Finnish Famine Suuret N lk vuodet of the 1860s and the Ukrainian Famine Holodomor of 1932 1933 In addition to providing new insights into these

events on international national and regional scales this volume contributes to an increased comparative historiography in historical famine studies The parallel studies presented in this book challenge and enhance established understandings of famine tragedies including famine causation and culpability social and regional famine vulnerabilities core periphery relationships between nations and regions degrees of national autonomy and self sufficiency as well as famine memory and identity Famines in European Economic History advocates that the impact and long term consequences of famine for a nation should be understood in the context of evolving geopolitical relations that extend beyond its borders Furthermore regional structures within a nation can lead to unevenness in both the severity of the immediate famine crisis and the post famine recovery This book will be of interest to those in the fields of economic history European history and economic geography

Famine, Conflict, and Response Frederick C. Cuny, Richard B. Hill, 1999 A practical guide to underlying causes and immediate lasting solutions for famine Explains efficient use of resources in a crisis Written by a well known disaster relief practitioner and humanitarian Fred Cuny adopts an economic approach to wartime famine that is still considered innovative and challenging by field experts His international fieldwork in both natural and man made disasters is visionary and his approach to famine pragmatic This book focuses on counter famine measures revolving around people s livelihoods giving humanitarian relief workers a more permanent solution to world hunger **Famine and Drought** Joanna Brundle, 2017-12-15 Readers are introduced to the perils of famine and drought and the lasting effects they have on Earth s geography and human population This captivating text brings forth how famine and drought happen what measures are taken to avoid them and how they have impacted different parts of the world Additional information is provided through enlightening fact boxes and simple diagrams to enhance readers knowledge of these crucial subjects Illuminating full color photographs are also included in this educational and age appropriate text which supports common science curriculum topics

On the Impending Bengal Famine Bartle Frere, 1874 Rotational Grazing and Intensive Pasture Management Ann Townsend Young, Carol A.
