Endgame an Analysis

Samuel Beckett's play *Endgame* presents a minimalistic environment to explore the elements of relationships. Beckett wrote the play in a cyclical in format reinforcing the choice of a self-imposed complex relationships the characters exist in. Even the opening line spoken by Clov, "It is finished. Or at least nearly finished," establishes this cycle. Beckett has accomplished this through a discussion of learned behaviors, fear of change, and the power of release when the need for change is accepted.

The cyclical theme begins with Clov removing the sheet from an immobile Hamm. Soon after a brief monologue from first Clov then Hamm, their relationship is revealed. Clov and Hamm have established a difficult relationship filled with tension and anger between the two. Eventually we are introduced to Nagg, Hamm's father. Nagg's choice of a self-centered focus is seen within his relationship with his wife Nell. Nagg's demand for affection from Nell has the two of them straining for Nell to give a kiss and to have Nagg's back scratched. When Nagg has the opportunity to talk with Hamm, it is revealed that this is how he raised Hamm. This learned behavior continues the cycle when Hamm treats Clov in the same manner. Clov's behavior and language continue to model Hamm, even when alternating between compassion and anger that he shows. Clov continues this behavior in his relations, and expectations, of others who may threaten the family's world. When he sees a child approaching he decides to get the gaff and remove the "procreator" that is approaching. This choice of action is modeled from the words and actions taught by Hamm and the continuation of the cycle.
