Mediterranean Transitions from the Gulf to the Sahel Giulia Daga, 2024-10-08 The war on Gaza the war on Ukraine the energy crisis and several initiatives to reshape regional and international partnerships and alliances have made the EU Southern Neighbourhood even more strategic for Italian and European interests The urgency to diversify the energy supply drawing on both fossil fuels and clean energy sources has pushed Italy to strengthen old and create new partnerships with countries on the southern shore of the Mediterranean as well as turn to countries in sub Saharan Africa This is aimed at both transforming Italy into an energy hub and becoming autonomous from Russia A reflection on energy supply diversification and political reconfigurations necessarily considers the highly strategic Red Sea and Gulf regions which are increasingly interconnected with the EU s Southern Neighbourhood in both political and economic terms as acknowledged by the recent European energy strategy The volume focuses on the most recent energy and political realignments involving actors in the areas with an eye to identifying guidelines for an integrated approach able to respond to the priorities of Italian and European foreign policies The book is divided into six chapters The first two chapters

This article will explore the advantages of Engaging Countries books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Engaging Countries books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge.
