The book starts with a quick recap of the fundamentals of modern JavaScript development before moving right along to the applications. For each application you are taken through the planning, design, and implementation stages. There's something for everyone here: a utility library, a validation framework, a GUI widget framework, a dynamic event calendar application, a drag and drop shopping cart, and more. Over the course of the book, author Frank Zammetti covers JavaScript best practices, Ajax techniques, and some of the most popular JavaScript libraries such as Prototype, Script.aculo.us, and the Yahoo! YUI. One of the main premises of this book is to help you learn by example so you can then apply your knowledge to your own projects. This book will save you countless hours of development time and help further your JavaScript knowledge.

Dark Brandon Brandon Downing, 2005 Poetry DARK BRANDON is Brandon Downing's follow-up to his previous collection THE SHIRT WEAPON. Continuing the earlier book's explorations of narrativity and false autobiography, DARK BRANDON makes use of castoff modalities of American visual culture: the failed commercial, the forgotten picture, the county fair program, the lost advertising icon, the epic blockbuster. There's a deceptive density in DARK BRANDON, deceptive because the tone is often exuberant and that exuberance acts as a kind of stoner Virgil leading you through the craziness of the work. But you also register that he's enjoying himself and that joy in piecing it together is an absolute necessity if one is going to take the deal of making art up at all in this age when manipulation of image and language is accepted to the point of ho-hum. Strange, beautiful.

Anselm Berrigan **At the Will of the Body** Arthur W. Frank, 1991 In this deeply affecting memoir, Arthur W. Frank explores the events of illness from within: the transformation from person to patient, the pain, the wonder, and the ceremony of recovery. To illuminate what illness can teach us about life, Frank draws upon his own encounters with serious illness: a heart attack at age thirty-nine and a year later a diagnosis of cancer. In poignant and clear prose, he offers brilliant insights into what happens when our bodies and emotions are pushed to extremes. Ultimately, he examines what it means to be human.
