Edwardian London Volume 3:

Respectability and the London Poor, 1780-1870 Lynn MacKay, 2015-10-06 The population of London soared during the Industrial Revolution and the poorer areas became iconic places of overcrowding and vice Focusing on the communities of Westminster MacKay shows that many of the plebeian populace retained traditional working class pursuits such as gambling drinking and blood sports

The Edwardian Sense Morna O'Neill, Michael Hatt, 2010 This is the twentieth in a series of occasional volumes devoted to studies in British art published by the Yale Center for British Art and the Paul Mellon Centre for Studies in British Art and distributed by Yale University Press Book Jacket

The Archaeology of Urban Landscapes Alan James Christian Mayne, Alan Mayne, Tim Murray, 2001-12-13 This exciting 2001 collection on a movement in urban archaeology investigates the historical archaeology of urban slums The material that is dug up broken dinner plates glass grog bottles and innumerable tonnes of building debris nails and plaster samples will not quickly find its way into museum collections But properly interpreted it yields evidence of lives and communities that have left little in the way of written records Including eleven case studies five on cities in the United States and one each on London and Sheffield and further chapters on Cape Town Sydney Melbourne and Quebec City it maps out a new field which will attract the attention of a range of students and scholars outside archaeology in particular historical sociologists and historians

City Of Cities Stephen Inwood, 2011-07-06 By 1880 London capital of the largest empire ever known was the richest most populous city in the world And yet it remained an overcrowded undergoverned city with huge slums gripped by poverty and disease Over the next three decades London began its transformation into a new kind of city one of unprecedented size dynamism and technological advance In this highly evocative account Stephen Inwood defines an era of unique character and importance by delving into the lives and textures of the booming city He takes us by hansom cab bicycle electric tram or motor bus from the glittering new department stores of Oxford Street to the synagogues and sweat shops of the East End from bohemian bars and gaudy music halls to the well kept gardens of Edwardian suburbia Essential reading for the scholar the historian and the lover of London He is equally at home with the grand sweep and the human detail always supported by immaculate research Inwood can throw off with elegant ease a concise explanation of technicalities that the reader was vaguely aware of not understanding and perhaps meant to look up sometime Liza Picard Financial Times Magazine

[The Irish in Victorian Britain](#) Roger Swift, Sheridan Gilley, 1999 This book illustrates the diversity of the Irish experience by reference to studies of specific towns and regions which have hitherto received little attention from historians of the Irish in Britain during the Victorian period

London Fog Christine L. Corton, 2015-11-02 A New York Times Book Review Editors Choice A Telegraph Editor's Choice An Evening Standard Best Books about London Selection In popular imagination London is a city of fog The classic London fogs the thick yellow pea soupers were born in the industrial age of the early nineteenth century Christine L Corton tells the story of these epic London fogs their dangers and beauty and their lasting effects on our culture

and imagination Engrossing and magnificently researched Corton's book combines meticulous social history with a wealth of eccentric detail Thus we learn that London's ubiquitous plane trees were chosen for their shiny fog resistant foliage And since Jack the Ripper actually went out to stalk his victims on fog free nights filmmakers had to fake the sort of dank smoke wreathed London scenes audiences craved It's discoveries like these that make reading London Fog such an unusual enthralling and enlightening experience Miranda Seymour New York Times Book Review Corton clad in an overcoat with a linklighter before her takes us into the gloomier long 19th century where she revels in its Gothic grasp Beautifully illustrated London Fog delves fascinatingly into that swirling miasma Philip Hoare New Statesman *British and Irish Paintings in Public Collections* Christopher Wright, Catherine May Gordon, 2006-01-01 This book sets a new standard as a work of reference It covers British and Irish art in public collections from the beginning of the sixteenth century to the end of the nineteenth and it encompasses nearly 9 000 painters and 90 000 paintings in more than 1 700 separate collections The book includes as well pictures that are now lost some as a consequence of the Second World War and others because of deaccessioning mostly from 1950 to about 1975 when Victorian art was out of fashion By listing many tens of thousands of previously unpublished works including around 13 000 which do not yet have any form of attribution this book becomes a unique and indispensable work of reference one that will transform the study of British and Irish painting London 1900 Alastair Service, 1979 When Londoners celebrated the Queen Victoria's Diamond Jubilee in 1897 the city the royal carriage rode through did not look like the capital of the largest empire in the world London was still the foggy dark complex and huge city which so impressed and frightened Frenchmen in the words of British architect Gavin Stamp Its medieval street plan and unassuming town houses contrasted sharply with Paris or Berlin In less than fifteen years however London was transformed Londoners put aside their puritanical restraint and distaste for novelties to turn their city into an imperial metropolis with a baffling variety of styles inspired by all periods from Imperial Rome and ancient Greece to the Middle Ages and the Renaissance Alastair Service explores the relationship between London's architectural transformation and contemporary changes in British society and politics From publisher description *A Mighty Capital under Threat* Bill Luckin, Peter Thorsheim, 2020-03-03 Demographically nineteenth century London or what Victorians called the new Rome first equaled then superseded its ancient ancestor By the mid eighteenth century the British capital had already developed into a global city Sustained by its enormous empire between 1800 and the First World War London ballooned in population and land area Nothing so vast had previously existed anywhere *A Mighty Capital under Threat* investigates the environmental history of one of the world's global cities and the largest city in the United Kingdom Contributors cover the feeding of London waste management movement between the city's numerous districts and the making and shaping of the environmental sciences in the late nineteenth and early twentieth centuries **Difficult Subjects** Kristina Huneault, 2002 The working women of Victorian and Edwardian Britain were fascinating but difficult subjects for artists photographers and

illustrators The cultural meanings of labour sat uncomfortably with conventional ideologies of femininity and working women unsettled the boundaries between gender and class selfhood and otherness From paintings of servants in middle class households to exhibits of flower makers on display for a shilling the visual culture of women s labour offered a complex web of interior fantasy and exterior reality The picture would become more challenging still when working women themselves began to use visual spectacle In this first in depth exploration of the representation of British working women Kristina Huneault explores the rich meanings of female employment during a period of labour unrest demands for women s enfranchisement and mounting calls for social justice In the course of her study she questions the investments of desire and the claims to power that reside in visual artifacts drawing significant conclusions about the relationship between art and identity
