**Thinking on Purpose** Neil Paton,2014-12-22 Is there a secret that some people seem to know about and use in creating lives that are overflowing with success and abundance The answer is absolutely yes Over the years it s been proven beyond a shadow of a doubt and yet surprisingly it remains a mystery to most to this very day We are the consequences of our environment and although we may not recognize the underlying forces influencing our lives each day the fact is we are all playing a role for the most part unconsciously in creating the outcomes that make up our lives Our thoughts create our feelings our feelings create our actions and our actions create our outcomes Indirectly yet surely we alone are ultimately responsible for the outcomes of our lives through the thoughts we have chosen to emotionally connect with The silver lining is that we also all have within our reach the ability to directly create new outcomes for a future that is limited only by the thoughts we choose from this day forward Only through learning how to consistently make constructive thought choices can we begin to make a difference in our lives and in the lives of those around us Join me on a personal journey learning the so called secrets and making them work for you in creating the life of your dreams A brand new world awaits Why not come and start building it
