

The background image shows an open-pit mine site. In the foreground, there are several large, shallow pits filled with muddy, brown water. The pits are surrounded by earthen walls and some wooden structures, possibly part of the mining infrastructure. In the background, there is a dense line of green trees, likely a forest. The sky is overcast with grey clouds. The overall scene suggests environmental impact from mining activities.

Environmental Dispute Resolution:

Environmental Dispute Resolution Ann L. MacNaughton, Jay G. Martin, 2002 This anthology provides a treatment of environmental dispute resolution for the practitioner along with practical guidance for those wishing to focus on particular aspects It offers a toolkit of diagnostics systems strategies and methodologies proven effective in diverse substantive contexts

Environmental Dispute Resolution Lawrence S. Bacow, Michael Wheeler, 2013-06-29 This book has its origins in an MIT research project that was funded by the U S Environmental Protection Agency EPA Our immediate objective was to prepare a set of case studies that examined bargaining and negotiation as they occurred between government environmental advocates and regulatees throughout the traditional regulatory process The project was part of a larger effort by the EPA to make environmental regulation more efficient and less litigious The principal investigator for the research effort was Lawrence Suskind of the Department of Urban Studies and Planning Eight case studies were prepared under the joint supervision of Suskind and the authors of this book Studying the negotiating behavior of parties as we worked our way through an environmental dispute proved enlightening We observed missed opportunities for settlement negotiating tactics that backfired and strategies that appeared to be grounded more in intuition than in thoughtful analysis At the same time however we were struck by how often the parties ultimately managed to muddle through People negotiated not out of some idealistic commitment to consensus but because they thought it better served their own interests When some negotiations reached an impasse people improvised mediation These disputants succeeded in spite of legal and institutional barriers even though few of them had a sophisticated understanding of negotiation

Promise and Performance Of Environmental Conflict Resolution Rosemary O'Leary, Lisa Bingham, 2003-08-01 Environmental conflict resolution ECR is a process of negotiation that allows stakeholders in a dispute to reach a mutually satisfactory agreement on their own terms The tools of ECR such as facilitation mediation and conflict assessment suggest that it fits well with other ideas for reforming environmental policy First used in 1974 ECR has been an official part of policymaking since the mid 1990s The Promise and Performance of Environmental Conflict Resolution is the first book to systematically evaluate the results of these efforts The Promise and Performance of Environmental Conflict Resolution presents empirical research along with insights from some of ECR's most experienced practitioners Beginning with a primer about concepts and methods the book describes the kinds of disputes where ECR has been applied making it clear that despite the faith of proponents in the power and usefulness of ECR it is not applicable to all environmental conflicts The contributions that follow critically investigate the record and potential of ECR drawing on perspectives from political science public administration regional planning philosophy psychology anthropology and law ECR is being extended to almost every area of environmental policy Rosemary O'Leary and Lisa Bingham argue that truly effective use of ECR requires something more than advocacy The Promise and Performance of Environmental Conflict Resolution provides scholars policymakers students and practitioners with critical assessments so

that ECR can be used to its best advantage *Environmental Conflict Resolution* Christopher Napier, 1998 Resolving Environmental Disputes Gail Bingham, 1986 Environmental Mediation Catherine Choquette, Véronique Fraser, 2017-12-14 Environmental mediation continues to develop and evolve in different jurisdictions across the world in order to prevent potential environmental conflicts or to resolve the conflicts while avoiding the inherent drawbacks of an adjudicated solution This book takes a comparative approach to explore the legal framework of environmental mediation with a focus on the judicial administrative and private procedures and the criteria for accrediting mediators in a range of jurisdictions across the world It also examines practical considerations for environmental mediators while analysing the effectiveness of different mediation processes **Managing Environmental and Public Policy Conflicts** Gordon Meeks, 1985 Environmental Disputes James Crowfoot, Julia M. Caplan, 2010-05-15 The book details an objectives based prescriptive model for resolving environmental disputes at all geographic scales It describes over 100 methods and tools and then provides explanations and examples of how the tools might be used It also details management options and methods sensitive to dispute scale and complexity **The Politics of Environmental Dispute Resolution** Barry George Rabe, 1989 Mediating Environmental Conflicts J.
