Fixing Broken Windows George L. Kelling, Catherine M. Coles, 1997 Cites successful examples of community based policing **Fixing "Broken Windows"** George L. Kelling, 1995 *Fixing "Broken Windows"* George L. Kelling, 1995

Citizens, Cops, and Power Steve Herbert, 2009-11-21 Politicians citizens and police agencies have long embraced community policing hoping to reduce crime and disorder by strengthening the ties between urban residents and the officers entrusted with their protection That strategy seems to make sense but in *Citizens Cops and Power* Steve Herbert reveals the reasons why it rarely if ever works Drawing on data he collected in diverse Seattle neighborhoods from interviews with residents observation of police officers and attendance at community police meetings Herbert identifies the many obstacles that make effective collaboration between city dwellers and the police so unlikely to succeed At the same time he shows that residents pragmatic ideas about the role of community differ dramatically from those held by social theorists Surprising and provocative *Citizens Cops and Power* provides a critical perspective not only on the future of community policing but on the nature of state society relations as well **An Introduction to American Policing** Dennis J. Stevens, 2008-08-15

[Criminology For Dummies](#) Steven Briggs, 2011-02-04 Your thorough guide to comprehending and combating crime Are you fascinated by criminology forensics and detective work This you are there guide takes you deep into the world of crime giving you a better understanding of the dark recesses of the criminal mind and how law enforcement officials investigate crime You ll gain real world knowledge of the reasons for and consequences of crime the way society responds to it and most important how crime can be prevented Enter the world of crime understand what crime is how it is measured and the various ways crime affects victims and society Identify different types of crime from white collar crime to organized crime to terrorism examine the nature of crime and why certain criminals are attracted to specific crimes Know who commits crimes and why explore different theories that attempt to explain why people commit crimes Take it to the streets follow law enforcement officials and federal agencies as they chase and apprehend the bad guys Seek justice meet the key players in the criminal justice system and see why and how the guilty are punished Deal with juveniles know the differences between adult and juvenile systems realize why youths are treated differently and review modern methods for treatment Open the book and find Common criminal traits The causes of violent crimes Recent efforts to secure victims rights The processes used to solve crimes A step by step walkthrough of the criminal justice process Ways to recognize and fight back against crime Jobs in the criminal justice field Ten notorious unsolved crimes *Zero Tolerance Policing* Maurice Punch, 2007-11-28 AGREED WITH AUTHOR What is policing about and who defines it This report examines these key issues by exploring the notion of zero tolerance and its application in different settings Following its introduction in New York and the seemingly dramatic reduction in crime zero tolerance policing was taken up in a number of other countries including the UK and the Netherlands This report examines that process It argues that this policy was in fact nothing more than a return to old style

crime control policing While it did foster the swift analysis of crime patterns and more assertive policing of public places it could lean towards repression and demonising of certain groups Examining the negative responses of leading police officers and the policy's debatable impact on crime the author concludes that zero tolerance in the UK and the Netherlands was more of a populist political and media creation than a coherent policy This report is far more than an authoritative analysis of zero tolerance It is a valuable source for entering the debate about the big picture in policing that many stakeholders now wish to see The approachable style of Zero tolerance policing makes it ideal for students academics police practitioners and the lay reader to enter that debate Maurice Punch is Visiting Professor at the Mannheim Centre for Criminology London School of Economics and Political Science and also teaches on criminological programmes at King's College London He has worked at universities in the UK US and the Netherlands and has published widely on corporate crime and police corruption

Ordering the City Nicole Stelle Garnett, 2010-01-01 This work highlights the multiple often overlooked and frequently misunderstood connections between land use and development policies and policing practices In order to do so the book draws upon multiple literatures as well as concrete case studies to better explore how these policy arenas intersect and conflict
