

Back View

The underband should sit firmly around your ribcage, level at the front and back and parallel to the ground. Too tight then you need a larger band, if it is rising up then a smaller one.

Front View

The centre front of your bra should sit flush against your ribcage. If yours isn't then try a larger cup size.

The correct band size will sit snugly and not move whether you raise your arms up or have them by your side.

Side View

The correct cup size will give you an even, rounded shape with no dreaded quad-boob in sight!

The underwire should extend fully behind your breast tissue, after you have done the Scoop and Swoop so there is no bulge or squashing under the arm.

Side Angled View

If you're spilling out of your cup a little or a lot, try a bigger cup size.
