There is a need to close the gap between the current and the required number of tonnes per tonne by 2030.

The Fashion System Roland Barthes,1990-07-25 On semiotics fashion and philosophy *Designing Fashion's Future*
Alice Payne,2020-12-10 How do fashion designers design How does design function within the industry How can design practices open up sustainable pathways for fashion s future *Designing Fashion s Future* responds to these questions to offer a fresh understanding of design practices within the sprawling shifting fashion system Fashion design is typically viewed as the rarefied practice of elite professionals or else as a single stage within the apparel value chain Alice Payne shows how design needn t be reduced to a set of decisions by a designer or design team but can instead be examined as a process object or agent that shapes fashion s material and symbolic worlds *Designing Fashion s Future* draws on more than 50 interviews with industry professionals based in Australia Asia North America Europe and the United Kingdom These diverse perspectives from multinational retailers independent and experimental contexts ground the discussion in contemporary industry practices

Fashion Zeitgeist Barbara Vinken,2004-11-01 Although it is appealing to think that fashion has taken a sharp turn away from conventions established in the industry over the past century and more is this really the case Or are pioneering designs simply part of a cyclical revival of forgotten fashions Looking at some of the most influential designers of the twentieth century Vinken considers the politics and philosophies that have been the driving forces directing their sense of style Vinken describes Fashion Zeitgeist as a trend characterized by representations of traces of the past She considers the key concepts behind designers such as Yamamoto Gaultier and Lagerfeld The originality of Yamamoto s multi layered look stems from his philosophy that it is the individual sum of experience that is important not the collective consequences of history Martin Margiela although he himself refuses to be photographed or appear in the public eye brings new individuality into fashion Chanel under the direction of Karl Lagerfeld is viewed as the only fashion house to have remained fresh after 100 years yet is this success essentially proof of the self referential qualities fashion has adopted What inspired the fetish for labels at the end of the twentieth century Answering these questions and many more this concise and thought provoking book shows how beauty gender sexuality commerce and dandyism have persisted in defining the fashion system
