Fragmented Ties:

Fragmented Ties Cecilia Menjívar,2000-07-21 This text gives a detailed account of the inner workings of the networks by which immigrants leave their homes in Central America to start new lives in the Mission District of San Francisco

Networks of Domination Paul MacDonald,2014-05-15 In the nineteenth century European states conquered vast stretches of territory across the periphery of the international system Much of Asia and Africa fell to the armies of the European great powers and by World War I those armies controlled 40 percent of the world s territory and 30 percent of its population Conventional wisdom states that these conquests were the product of European military dominance or technological superiority but the reality was far more complex In Networks of Domination Paul MacDonald argues that an ability to exploit the internal political situation within a targeted territory not mere military might was a crucial element of conquest European states enjoyed greatest success when they were able to recruit local collaborators from within the society and exploit divisions among elites Different configurations of social ties connecting potential conquerors with elites were central to both the patterns of imperial conquest and the strategies conquerors employed MacDonald compares episodes of British colonial expansion in India South Africa and Nigeria during the nineteenth century and also examines the contemporary applicability of the theory through an examination of the United States occupation of Iraq The scramble for empire fundamentally shaped and continues to shape the international system we inhabit today Featuring a powerful theory of the role of social networks in shaping the international system Networks of Domination bridges past and present to highlight the lessons of conquest

We Thought It Would Be Heaven Blair Sackett,Annette Lareau,2023-08-22 Resettled refugees in America face a land of daunting obstacles where small things one person one encounter can make all the difference in getting ahead or falling behind Fleeing war and violence many refugees dream that moving to the United States will be like going to Heaven Instead they enter a deeply unequal American society often at the bottom Through the lived experiences of families resettled from the Democratic Republic of the Congo Blair Sackett and Annette Lareau reveal how a daunting obstacle course of agencies and services can drastically alter refugees experiences building a new life in America In these stories of struggle and hope as one volunteer said you see the American story For some families minor mistakes create catastrophes food stamps cut off educational opportunities missed benefits lost Other families with the help of volunteers and social supports escape these traps and take steps toward reaching their dreams Engaging and eye opening We Thought It Would Be Heaven brings readers into the daily lives of Congolese refugees and offers guidance for how activists workers and policymakers can help refugee families thrive

Doubled Up Hope Harvey,2025-05-06 How sharing a home with extended family or friends serves as a crucial but imperfect private safety net for families with children More than fifteen percent of US children over eleven million live in doubled up households sharing space with extended family or friends These households are even more common among low income families families of color and single parent families functioning as a

private safety net for many in a country with extremely limited public support for families Yet despite their prevalence we know little about how shared households form and how they shape family life *Doubled Up* is an in depth look at the experiences of families with children living in doubled up households Drawing on extensive interviews with sixty parents living in doubled up households Hope Harvey examines what circumstances and motivations lead families to form doubled up households how living in shared households affects daily routines and how families fare after these arrangements dissolve Harvey shows that although families rely on doubling up to get by in the face of rapidly rising housing costs precarious labor markets and unaffordable childcare these private arrangements are rarely sufficient to overcome such structural barriers And doubling up incurs its own costs for both host and guest families For doubled up families negotiating household relationships and navigating shared space reshapes family life Understanding the dynamics of doubled up households extends scholarship on family life beyond the nuclear family and points the way toward better policies that will serve all families

The Sociology of Community Connections John G.
