

Activities to Improve **Mental Health**

What is mental health, and how do we improve it?

Our mental health comprises our psychological, social, and emotional well-being. When our mental health is good, our thoughts, feelings, and actions manifest in productive ways that deal with life's stressors. Poor mental health can cause various problems as daily situations easily overwhelm us, leading to issues like depression, anxiety, insomnia, or irritability. Luckily, a variety of simple and enjoyable mental health activities can improve our mental health and help us manage life's ups and downs.

Exercise

On average, a person has 3.4 poor mental health days per month—described as stress, depression, or emotional concerns. Among those who exercised, that number dropped more than 40%.

Get Natural

Green exercise is activity in the presence of nature. Evidence shows it leads to positive short and long-term health outcomes in improving self-esteem and mood (indicators of mental health)

Socialize

Interacting with others boosts feelings of well-being and decreases feelings of depression. Research has shown that one sure way of improving your mood is to work on building social connections.
