Double Jeopardy David

Rudstein, 2004-12-30 This volume traces the history of the Double Jeopardy Clause of the Fifth Amendment of the United States Constitution It shows that the constitutional guarantee against double jeopardy has its roots in ancient Jewish and early Greek and Roman law After recapping the history of the clause the Supreme Court's current interpretation of the

clause is explained This book describes the circumstances in which the premature termination of an individual s trial bars a subsequent trail for the same offense It also examines when the Clause prohibits the government from imposing multiple punishments for the same offense The final chapter includes a discussion of bibliographical sources **Jet** ,1996-03-18 The weekly source of African American political and entertainment news **PRICAI 2000 Topics in Artificial Intelligence** Riichiro Mizoguchi,John Slaney,2007-12-07 PRICAI 2000 held in Melbourne Australia is the sixth Pacific Rim Interna tional Conference on Artificial Intelligence and is the successor to the five earlier PRICAIs held in Nagoya Japan Seoul Korea Beijing China Cairns Aus tralia and Singapore in the years 1990 1992 1994 1996 and 1998 respectively PRICAI is the leading conference in the Pacific Rim region for the presenta tion of research in Artificial Intelligence including its applications to problems of social and economic importance The objectives of PRICAI are To provide a forum for the introduction and discussion of new research results concepts and technologies To provide practising engineers with exposure to and an evaluation of evolving research tools and practices To provide the research community with exposure to the problems of practical applications of AI and To encourage the exchange of AI technologies and experience within the Pacific Rim countries PRICAI 2000 is a memorial event in the sense that it is the last one in the 20 century It reflects what researchers in this region believe to be promising for their future AI research activities In fact some salient features can be seen in the papers accepted We have 12 papers on agents while PRICAI 96 and 98 had no more than two or three This suggests to us one of the directions in which AI research is going in the next century It is true that agent research provides us with a wide range of research subjects from basic ones to applications *History of Jefferson County, Pennsylvania, with Illus. and Biographical Sketches of Some of Its Prominent Men and Pioneers* Kate M. conscious and unconscious compromises to create profit and power Mullenneaux identifies patterns of macro and micro negotiation and reinvention and maps them onto the waves of legal economic and social change to identify broader historical links that complicate notions of the influence of gendered power and the definition of feminism the role of the body embodiment in race class and gender issues the relevance of family history to the achievements of influential Americans and national versus inter and transnational cultural trends While Staging Family expands our understanding of how nineteenth century actresses both negotiated power and then hid that power it also informs contemporary questions of how women juggle professional and personal responsibilities achieving success in spite of gender constraints and societal expectations
