College of Justice Andrew R. C. Simpson, 2025-09-30 In 1532 James V instituted the College of Justice an incorporated group of expert lawyers and administrators who were to exercise supreme Scottish civil jurisdiction Why did he decide to do that This book argues that the scheme was informed by a powerful sense of the role that an incorporated body of expert lawyers might serve in articulating a just law for the realm The new institution also more fully defined the relationship between the king and his supreme judges reflecting contemporary European thought Furthermore the new College of Justice was meant to have a significant role in connection with the government of the Scottish Catholic Church on the eve of the Reformation This account of the institution of the College of Justice serves as a case study of the powerful role of lawyers in state formation during the Renaissance It will also be of interest to those who wish to understand the origins of a court that remains part of the Scottish legal landscape to this day
