

Fatally flawed:

Has the state learned lessons from the deaths of children and young people in prison?

Fatally Flawed

**Public Service Commission of
Wisconsin**

Fatally Flawed:

Fatal Flaws Earl J. Seeley, 2022-01-06 The warming of Earth's surface that has occurred since 1880 has been grossly overstated and attributed entirely to carbon dioxide based on a preposterous assumption. That assumption is: All of the warming of Earth's surface temperature during the last 140 years is due to accumulation of carbon dioxide and other minor greenhouse gases in the atmosphere. The level of carbon dioxide has increased from 290 ppm to 411 ppm. That is an increase of 121 ppm from 0.029% to 0.041% of the atmosphere. There are other environmental forces which are much stronger, more prevalent, and active in regulating and modulating the Earth's surface temperature than carbon dioxide. These forces are in order of impact: First, The sun; Second, The Earth's waters; Third, Heat from the Earth's core; Fourth, Atmospheric aerosols; and Fifth, Carbon dioxide and the other minor greenhouse gases. While carbon dioxide is an extremely important substance in the support of life on this planet, its contribution to the greenhouse effect is a bit part, not a leading role. There are three fatally flawed assumptions and six Fatal Flaws at the heart of the Global Warming theory. Each is discussed in this book, the flaws identified, and evidence presented. These Flaws originated when, in forming the Theory of Global Warming, the contributions of the four most important environmental forces involved in the control of the Earth's surface temperature were assumed to have had no effect on the warming trend. Because of the single dimension models used in climate research, the contributions of these four climate-controlling forces are mistakenly credited to climate forcing by carbon dioxide. The remaining two fatal flaws concern carbon dioxide's roles and fate in nature. The contents of this work will challenge what most people believe about the global warming theory. Read and contemplate this work and the supporting evidence; then you be the judge. **A Pre-Book and a Victim's Guide to Surviving the Narcissist/Sociopath Updated** Sereena Nightshade, 2016-01-15 The Victim's Guide to Surviving the Narcissist/Sociopath Updated and its first position 300 plus page Pre-Book is a two-books-in-one book designed to assist victims of covert spousal predators and their support persons understand the reality of the covert spousal predator, i.e., the narcissist, malignant narcissist, sociopath, psychopath, dual diagnosed, dual diagnosable, narcopath. This material delves into the worst case scenario possible for the spousal victim, as well as common red flags, exploitation, strip mining, predatory take-ALL agenda, and abuse patterns perpetrated by the covert spousal predator in his/her hunting prime and afterward when the predator decompensates. Many valuable references are provided throughout this book for further education, research, and understanding. Readers are strongly encouraged to continue their review of material created by all of the referenced educators and authors listed in this book. Moreover, the top mistakes made by victims' support persons for victims' professionals, law enforcement, and others are detailed in the hopes that readers will avoid making as many of these errors as they face various scenarios with the predator or predators in their lives or in the lives of others they are attempting to assist. For spousal victims in the worst case scenario with an empowered, aided, and abetted covert spousal predator, i.e., situations where common minor children are involved, this book covers topics typically not touched in the material of others.

This book is not about overt spousal predators i e abusers whose victims can effectively use the system and or domestic violence shelter assistance to flee though overt predators perpetrate many of the same abuse patterns minus the skill of becoming aided and abetted via abuse by proxy scams which are commonly the mainstay of the covert predator s take ALL agenda

The Campaign Manager Catherine Shaw,2026-02-26 Successful campaign manager and three term mayor of Ashland Oregon Catherine Shaw presents the must have handbook for navigating local campaigns This clear and concise handbook gives political novices and veterans alike a detailed plan for organizing funding publicizing and winning local political campaigns Finding the right message and targeting the right voters are clearly explained through specific examples anecdotes and illustrations Shaw also provides in depth information on assembling campaign teams and volunteers canvassing how to conduct a precinct analysis and how to campaign on a shoestring budget Cutting through the noise of the contemporary political climate Shaw reveals how working to build community and connection remains key to winning local elections

Coming to Terms William Safire,2012-01-04 When William Safire delineates the difference between misinformation and disinformation or distances himself from clich s people sit up and take notice Which is not to say that Safire s readers always take the punning pundit at his word they don t and he s got the letters to prove it Among the entries in *Coming to Terms* this all new collection of Safire s On Language columns you ll read the repartee of Lexicographic Irregulars great and small John Haim of New York sets in concrete what properly to call a cement truck while Charlton Heston challenges an interpretation of Hamlet s to take arms against a sea of troubles and Gene Shalit passes along his favorite Yogi Berra ism Bringing them all together are dozens of Safire s most illuminating and witty columns from Right Stuffing to Getting Whom When William Safire comes to terms there s never a dull moment
