Jerry Herring's Guide to Understanding and Enjoying Houston Jerry Herring, 1992 *Ephemeral City* Barrie Scardino, Bruce C. Webb, 2003-12-01 Praise for Cite The Architecture and Design Review of Houston I find Cite to be thorough imaginative always stimulating and responsive to the diversity of the Houston community I hope to see it continue I hope to see it flourish Larry McMurtry Cite is one of the liveliest and most interesting journals on architecture and urbanism that is being produced today Robert Bruegmann Professor and Chair Art History Department and School of Architecture University of Illinois at Chicago Cite has become an important national publication for it situates local and regional culture within the context of national and global issues Thus it provides an antidote to provincialism on the one hand and to excessively abstract globalism on the other Put differently Cite proves that local concerns need not be parochial while national or global trends have multiple variations Gwendolyn Wright Professor Graduate School of Architecture and Planning Columbia University In my judgment this magazine is competitive with any in the United States that focuses on architecture and the built environment Kenneth T Jackson Jacques Barzun Professor of History and the Social Sciences Columbia University I know of few other publications in America that have so consistently and at such a perceptive and sophisticated level promoted high quality design as a mission of education and improvement I am devoted to it and read every issue with great interest though I live a half continent away Laurie D Olin FASLA Hon AIA FAAR Practice Professor of Landscape Architecture Graduate School of Fine Arts University of Pennsylvania Built around characteristic features of modern life such as rapid change built in obsolescence indeterminacy media orientation a culture of style and instant gratification Houston is an ephemeral city hard to pin down and understand Its lack of zoning Houston is the only major city in America without it and a burgeoning population that doubles every generation have created a new urban paradigm where displacements of traditional patterns of stability and urban ritual are now the norm Since 1982 Cite The Architectural and Design Review of Houston has explored the nature of Houston s evolution as an urban place by publishing commissioned articles by nationally known writers and architectural historians and high quality photography This volume brings together twenty five exceptional articles from Cite s first twenty years along with 224 black and white photographs maps and plans The book is divided into three sections Idea of the City edited by Bruce C Webb Places of the City edited by Barrie Scardino and Buildings of the City edited by William F Stern The sections are introduced with new essays written by the editors to provide cohesion for the anthology and commentary on where Houston might be going in the twenty first century Most articles are followed by a brief update and bibliography of related articles published in Cite The editors chose these articles to explore the developmental history and architecture of a flat sprawling free spirited city that is impossible to capture through any one episode or explain through any one place With a diversity of voices and a selection that includes both narrow and broad topics the volume constitutes a collage that captures the essence of a remarkable place inchoate patchwork full of youthful vigor favorable to
