Gold Nuggets:

Famous Gold Nuggets of the World ,1900 Report of the Board of Trustees and State Mineralogist ,1882 Golden Nuggets from the Mountains Fred B. Lunsford,2010-12-01 The late 1920 and early 1930 s was the time of the Great Depression Little or no work was available so people could earn money for survival All mountain families grew vegetables kept a milk cow and raised some hogs Those who owned their mountain farms lived well by working hard and managing well They cut timber to sell and earn a little money necessary for clothing and other things they couldn t grow It was widely known that gold had been found in the mountains Men would put in endless hours panning for gold in the small mountain streams Now and then someone would find a gold nugget Most of the time it would be the size of a pea or maybe the size of a marble Gold was a symbol of wealth When someone found a nugget and word got around everyone would be talking about Uncle Ben striking it rich However I never knew of anyone selling his gold for a pile of money One day I realized that gold nuggets were not only present in these mountains but that there were golden nuggets in the experiences of my life in these mountains It is with great joy that I share these stories with anyone who cares to read them Fred Lunsford **Cognitive English Grammar** Günter Radden,René Dirven,2007 Cognitive English Grammar is designed to be used as a textbook in courses of English and general linguistics It introduces the reader to cognitive linguistic theory and shows that Cognitive Grammar helps us to gain a better understanding of the grammar of English The notions of motivation and meaningfulness are central to the approach adopted in the book In four major parts comprising 12 chapters Cognitive English Grammar integrates recent cognitive approaches into one coherent model allowing the analysis of the most central constructions of English Part I presents the cognitive framework conceptual and linguistic categories their combination in situations the cognitive operations applied to them and the organisation of conceptual structures into linguistic constructions Part II deals with the category of things and their linguistic structuring as nouns and noun phrases It shows how things are grounded in reality by means of reference quantified by set and scalar quantifiers and qualified by modifiers Part III describes situations as temporal units of various layers internally as types of situations and externally as located relative to the time of speech and grounded in reality or potentiality Part IV looks at situations as relational units and their structuring as sentences Its two chapters are devoted to event schemas and space and metaphorical extensions of space Cognitive English Grammar offers a wealth of linguistic data and explanations The didactic quality is guaranteed by the frequent use of definitions and examples a glossary of the terms used overviews and chapter summaries suggestions for further reading and study questions For the Key to Study Questions click here **A Study of Ore Deposits for the Practical Miner** James Philip Wallace,1908
