*Catholicism and Liberal Democracy* James Martin Carr,2022-11 *Catholicism and Liberal Democracy* seeks to clarify if there is a place for Catholicism in the public discourse of modern liberal democracy bringing secular liberalism as articulated by J rgen Habermas into conversation with the Catholic tradition James Martin Carr explores three aspects of the Catholic tradition relevant to this debate the Church s response to democracy from the nineteenth century up until the eve of the Second Vatican Council the Council s engagement with modernity in particular through *Gaudium et spes* and *Dignitatis humanae* and Joseph Ratzinger s theology of politics as a particularly incisive and influential articulation of the Catholic tradition in this area J rgen Habermas s theorization of the place of religion in modern democracy both in his earlier secularist phase and after his post secular turn is evaluated The adequacy of Habermas s recent attempts to accommodate religious citizens are critically examined and it is argued that developments in his later thought logically require a more thoroughgoing revision of his earlier theory These developments it is argued create tantalizing openings for fruitful dialogue between Habermas and the Catholic tradition Using analytical tools drawn from communications theory the debates on same sex marriage at Westminster and in the Irish referendum campaign are analyzed assessing whether Catholic contributions to these debates comply with Habermasian rules of civic discourse In light of this analysis the prospects of and impediments to Catholic participation in public discourse are appraised Carr concludes by proposing a Ratzingerian critique of contemporary attempts to redefine marriage within a broader more fundamental critique of the modern democratic state as currently configured A political system founded upon secularist monism cannot but regard Christian Gelasianism and its Catholic variant in particular as an existential threat Thus Catholics however Habermasian their political behavior can never be more than uneasy bedfellows with modern liberal democracy      *Literary and Cultural Production, World-Ecology, and the Global*
