Bartok, Hungary, and the Renewal of Tradition David E. Schneider, 2006-11-06 It is well known that B la Bart k had an extraordinary ability to synthesize Western art music with the folk music of Eastern Europe What this rich and beautifully written study makes clear is that contrary to much prevailing thought about the great twentieth century Hungarian composer Bart k was also strongly influenced by the art music traditions of his native country Drawing from a wide array of material including contemporary reviews and little known Hungarian documents David Schneider presents a new approach to Bart k that acknowledges the composer s debt to a variety of Hungarian music traditions as well as to influential contemporaries such as Igor Stravinsky Putting representative works from each decade beginning with Bart k s graduation from the Music Academy in 1903 until his departure for the United States in 1940 under critical lens Schneider reads the composer s artistic output as both a continuation and a profound transformation of the very national tradition he repeatedly rejected in public By clarifying why Bart k felt compelled to obscure his ties to the past and by illuminating what that past actually was Schneider dispels myths about Bart k s relationship to nineteenth century traditions and at the same time provides a new perspective on the relationship between nationalism and modernism in early twentieth century music

The Last Romantic in His Own Words James A. Grymes, Veronika Kusz, 2024-12-05 The Last Romantic in His Own Words presents the selected writings and interviews of Hungarian pianist conductor and composer Ernst von Dohn nyi These texts shed new light on Dohn nyi s singular aesthetics as well as on his career as a charismatic and at times controversial public figure who was one of the most influential musicians of the twentieth century particularly in Hungary The book facilitates a much needed reevaluation of a public figure and private individual caught up in the web of twentieth century politics resulting in a picture that is more complete than ever of one of the most elusive musicians of the twentieth century

The Viennese Waltz Danielle Hood, 2022-06-01 Satirized by Strauss II to highlight the deceptive

aristocratic class under Schoenberg Mahler and Webern's pens the waltz became the pivot between the conscious and unconscious forcing a paralytic second state analogous with the stagnation of the Habsburg Empire The Viennese Waltz shows how between 1864-1928 the waltz altered from signifier of upper class artifice to the link between man and nature and between Viennese and Otherhood wields the Freudian concepts of the uncanny and the doppelgänger to explain this revolution from the simple signification of a dance to the psychological anxiety of a subject's place in society *Gypsy Music* Alan Ashton-Smith, 2017-10-15 Gypsies have for centuries been simultaneously vilified and romanticized associated with criminality and dirt but at the same time with color magic and music Gypsy music is popular around the world and often performed with gusto at major events including at weddings in Bulgaria jazz bars in Paris and festivals in the United States In *Gypsy Music* Alan Ashton-Smith explores why this music has such wide appeal surveying the varied styles that are considered to be gypsy music and asking what links them together The book begins in the Balkans home to the world's largest Romani populations and a major site of gypsy music production But just as the traditionally nomadic Roma have traveled globally so has their music Gypsy music styles have roots and associations outside of the Balkans including Russian Romani guitar music flamenco and gypsy jazz and the more recent forms of gypsy punk and Balkan beats Covering the thirteenth century to the present day and with a geographical scope that ranges from rural Romania to New York by way of Budapest Moscow and Andalusia *Gypsy Music* reveals the remarkable diversity of this exuberant art form **Jewish and Non-Jewish Spaces in the Urban Context** Maria Cieśla, Saskia Coenen Snyder, Eszter Gantner, Frank Golczewski, François Guesnet, Felix Heinert, Jürgen Heyde, Alexis Hofmeister, Wolfgang Kaschuba, Martin Kindermann, Nora Lafi, Ruth Leiserowitz, Diana I. Popescu, Monica Rùthers, Anne-Christin Saß, Joachim Schlör, Magdalena Waligórska, Mirjam Zadoff, 2015-09-22 The unifying thread of the interdisciplinary volume *Jewish and Non Jewish Spaces in the Urban Context* is the fact that Jewish spaces are almost always generated in relation to non Jewish spaces they determine and influence each other This general phenomenon will be scrutinized and put to the test again and again in a varied collection of articles by international experienced researchers as well as junior scholars using various urban contexts and discourses as data From the viewpoints of different temporal and regional research traditions and disciplines the contributors deal with the question of how Jewish and non Jewish spaces are imagined constructed negotiated and intertwined All examples and case studies together create a mosaic of possibilities for the construction of Jewish and non Jewish spaces in different settings The list of examined topics ranges from synagogues to ghettos from urban neighborhoods to cafés and festivals from art to literature This diversity makes the volume a challenging effort of giving an overview of the current academic discussion in Europe and beyond Although the majority of the contributions are focused on Central and Eastern Europe a more general tendency becomes apparent in all articles the negotiation of urban spaces seems to be a complex and ambivalent process in which a large number of participants are involved In this regard the volume would also like to contribute to trans disciplinary urban
