The Ethics of Mourning R. Clifton Spargo, 2004-11-18 Publisher Description *Variations on the Ethics of Mourning in Modern Literature in French* Jean Khalifa, Carole Bourne-Taylor, Sara-Louise Cooper, 2021 How does modern writing in French grapple with the present absence and absent presence of lost loved ones This book explores the question from the Revolution to the COVID pandemic showing how mourning blurs the boundaries between the personal and the historical the aesthetic and the ethical Variations on the Ethics of Mourning in Modern Literature in French Carole Bourne-Taylor, Sara-Louise Cooper, 2021 How does modern writing in French grapple with the present absence and absent presence of lost loved ones How might it challenge and critique the relegation of certain deaths to the realm of the unmournable What might this reveal about the role of the literary in the French and francophone world and shifting conceptions of the nation state Essays from the Revolution to the present day explore these questions from a variety of perspectives bringing out the ways in which mourning blurs the boundaries between the personal and the historical the aesthetic and the ethical the self and the other and ultimately reasserting its truly critical resonance as a concept *The Ethics of Mourning* Kimberly J. **Mourning, Modernism, Postmodernism** Tammy Clewell, 2009-10-22 Mourning Modernism Postmodernism illuminates the emergence of a fundamentally new way of thinking and writing about loss in the twentieth century novel one that spurns consolation and the conventional aim of closure Inaugurated in the modernist novel the rejection of consolation manages to promote a politically progressive politics of mourning The modernist novel established as well the terms of a new mourning practice terms whose democratizing aims would be challenged in the late modernist period but ultimately reanimated and reworked by postmodern writers In challenging the familiar view of modernist aesthetics as removed from social concerns and of postmodernist aesthetics as a self reflexive language game incapable of representing affirmative content Mourning Modernism Postmodernism demonstrates how novelists of some of the most experimental fiction of the century engage the open ended aspects of loss to imagine new forms of identity and social change **The Ethics of Judaism: Sanctification of life the aim of morality** Moritz Lazarus, 1901 **The Meaning of Mourning** Mikolaj Slawkowski-Rode, 2023-01-09 Grief is a universal human response to death and loss Mourning is an equally universally observable practice that enables the bereaved to express their grief and come to terms with the reality of loss Yet despite their prevalence there is no unified understanding of the nature and meaning of grief and mourning *The Meaning of Mourning Perspectives on Death Loss and Grief* brings together fifteen essays from diverse disciplines addressing the topics of death grief and mourning The collection moves from general questions concerning the putative badness of death and the meaning of loss through the phenomenology and psychology of grief to personal and cultural aspects of mourning Contributors examine topics such as theodicy and grief reproductive loss mourning as a form of recognition of value the roots of grief in early childhood grief in COVID times hope phenomenology of loss public commemoration and mourning rituals mourning for a devastated culture the Necropolis of

Glasgow and the art of outliving Edited by Mikolaj Slawkowski Rode the volume provides a survey of the rich topography of methodologies problems approaches and disciplines that are involved in the study of issues surrounding loss and our responses to it and guides the reader through a spectrum of perspectives highlighting the connections and discontinuities between them

**"When Coldness Traps this Suffering Clay"** Yen-Chen Chuang,2009 This dissertation is a project of mourning in Sophocles Shakespeare and Joyce My theoretical approaches range from psychoanalysis including works by Lacan Freud Abraham and Torok to the deconstructive and ethical prism of Derrida The chapter on Sophocles Antigone deals with the relationship between ethics and mourning I demonstrate that at the heart of the Law is always an impossible injunction desire Antigone s mourning in fact marks the failure of interiorization of this Law In the Greek play Antigone s death drive connotes an ethical act that insists on her desire A supplement of the written law Antigone acts out her exorbitant faithfulness to that transgressive desire The chapters on James Joyce s *The Dead* and *Ulysses* focus on the politics of eating closely linked to mourning and the question of hospitality Yet in Joyce s works eating only disrupts the healthy process of mourning and builds an indigestible crypt within the psyche In *Ulysses* eating parallels incorporation of the love object and implies incestuous scenarios In *The Dead* the haunted dinner party opens the absolute hospitality between the living and the deceased The inviting host is held hostage through vicarious mourning In my third chapter I discuss Shakespeare s *Hamlet* through a Derridean and Levinasian lens Mourning as the relations between being in general and the face is always an excess of ethical intersubjectivity For Shakespeare the revenge tragedy is manifested through an excess of substitution mourning The ghost anticipates mourning and engages with promises of expiation at the same time and also at the time of the other As it turns out the Danish prince s fidelity to the dead father is nothing more than a performative insistence structured like endless apocalyptic writings

*Grief* Michael Cholbi,2024-01-16 An engaging and illuminating exploration of grief and why despite its intense pain it can also help us grow Experiencing grief at the death of a person we love or who matters to us as universal as it is painful is central to the human condition Surprisingly however philosophers have rarely examined grief in any depth In *Grief* Michael Cholbi presents a groundbreaking philosophical exploration of this complex emotional event offering valuable new insights about what grief is whom we grieve and how grief can ultimately lead us to a richer self understanding and a fuller realization of our humanity Drawing on psychology social science and literature as well as philosophy Cholbi explains that we grieve for the loss of those in whom our identities are invested including people we don t know personally but cherish anyway such as public figures Their deaths not only deprive us of worthwhile experiences they also disrupt our commitments and values Yet grief is something we should embrace rather than avoid an important part of a good and meaningful life The key to understanding this paradox Cholbi says is that grief offers us a unique and powerful opportunity to grow in self knowledge by fashioning a new identity Although grief can be tumultuous and disorienting it also reflects our distinctly human capacity to rationally adapt as the relationships we depend

on evolve An original account of how grieving works and why it is so important Grief shows how the pain of this experience gives us a chance to deepen our relationships with others and ourselves **Mosaic** ,2011-12 **The Ethics of Death** Lloyd Steffen,Dennis R. Cooley,2014-07-01 In *The Ethics of Death* the authors one a philosopher and one a religious studies scholar undertake an examination of the deaths that we experience as members of a larger moral community Their respectful and engaging dialogue highlights the complex and challenging issues that surround many deaths in our modern world and helps readers frame thoughtful responses Unafraid of difficult topics Steffen and Cooley fully engage suicide physician assisted suicide euthanasia capital punishment abortion and war as areas of life where death poses moral challenges

Shakespeare Quarterly ,2004 *Imagining the End* Jonathan Lear,2022-11-15 A Washington Post Notable Work of Nonfiction A Chronicle of Higher Education Best Scholarly Book A deeply insightful and thought enriching work by one of the most original philosophers writing today *Imagining the End* is acutely aware of the danger we stand in of finding ourselves on an uninhabitable planet But Lear is also aware of how the consciousness of impending loss can bring out the illumination inherent in meaningful life often occluded in day to day living Charles Taylor author of *A Secular Age* Lear is a lovely and subtle writer someone who has a rare capacity to introduce ways of seeing and interrogating the world that dignify our confusion and pain while also opening up new possibilities for moving forward Daniel Oppenheimer Washington Post The range of Jonathan Lear s abilities as a philosopher and psychoanalyst who draws from ancient and modern thought personal history and everyday experience to help us think about how we can flourish in a world of flux and finitude is on full display in *Imagining the End* Lear masterfully explores how we respond to loss crisis and hope considering our bewilderment in the face of planetary catastrophe He examines the role of the humanities in expanding our imaginative and emotional repertoire How might we live he asks when we realize just how vulnerable the cultures to which we traditionally turn for solace might be He addresses how mourning can help us thrive the role of moral exemplars in shaping our sense of the good and the place of gratitude in human life Along the way he touches on figures as diverse as Aristotle Abraham Lincoln Sigmund Freud and the British royals Harry and Meghan Written with Lear s characteristic elegance philosophical depth and psychological perceptiveness *Imagining the End* is a powerful meditation on persistence in an age of turbulence and anxiety

Jackson,2013-12-16 At certain moments in his political essays Kant conceives of socio historical emancipation as a process of working ourselves out of pathological legacies suggesting that emancipation would involve a process of working through our affective attachments to entrenched regressive social arrangements Jackson shows how Freud s analyses of melancholia mania and the work of mourning can contribute to an understanding of key dimensions of such pathological social fixations as well as the possibility of working through the past This book argues that bringing Freud s provocative analyses of loss to bear on particular philosophical treatments of history leads to a more coherent psychoanalytically informed understanding of history Although Freud does not himself integrate these themes into a theory of socio political emancipation his thinking nonetheless can be read as contributing to such a theory To develop this idea the book draws on thinkers such as Karl Marx Theodor Adorno Edmund Husserl Martin Heidegger Axel Honneth and Judith Butler The book engages students and scholars of contemporary continental philosophy by arguing for connections between psychoanalysis philosophy and critical theory **Journalism and Political Democracy in Brazil** Carolina Matos,2008-01-01 This book explores the process of media development and democratization in Brazil from the end of the dictatorship in 1985 to today s market liberal press Journalism and Political Democracy in Brazil is intended for those interested in Latin American and Brazilian politics history and media as well as for those concerned about the role of the press in democratic transitions and the limitations imposed upon them during the process of demoratization
