effort in creating and implementing a strategy. Institutions of higher education seem to be missing the requisite tools to develop and activate their play book. With this new age of globally available real time information it becomes increasingly more essential to have a map to help go over and around obstacles, avoid the ever present pitfalls and effectively aid in selecting the best route. Rowley and Sherman provide such tools in this exciting and comprehensive new book. I wish that when I was a department chair, president of a faculty senate and dean that this superb work was available. My function in planning would have been so much easier and more rewarding.
