Forgotten Religions

Erwin Leander Shaver

Forgotten Religions:

Ancient Religions Vergilius Ferm, 1965 forgotten religions , 1950 **Lost Faiths** Nakoa Rainfall, AI, 2025-02-27 **Lost Faiths** explores the captivating yet often somber stories of extinct religions and forgotten deities examining why these belief systems vanished and their lasting impact The book delves into the rise and fall of complex pantheons like those of ancient Egypt revealing how social political and environmental factors contributed to their decline It also investigates localized spiritual traditions eradicated by dominant religions emphasizing the importance of preserving the memory of marginalized communities Drawing from historical research archaeological findings and comparative religious studies the book adopts an interdisciplinary approach integrating insights from anthropology sociology and archaeology **Lost Faiths** is structured in three parts beginning with an introduction to religious extinction then moving to case studies from ancient civilizations and concluding with the broader implications for cultural identity and religious thought This approach makes the book a valuable resource for those interested in understanding the dynamism of belief systems and the fragility of cultural heritage

Forgetting Faith? Isabel Karremann, Cornel Zwierlein, Inga Mai Groote, 2012-01-27 For the last decade early modern studies have significantly been reshaped by raising new and different questions on the uses of religion This religious turn has generated new discussion of the social processes at work in early modern Europe and their cultural effects from the struggle over religious rites and doctrines to the persecution of secret adherents to forbidden practices The issue of religious pluralisation has been mostly debated in terms of dissent and escalation But confessional controversy did not always erupt into hostilities over how to symbolize and perform the sacred nor lead to a paralysis of social agency The order of the day may often have been to suspend confessional allegiances rather than enforce religious conflict suggesting a pragmatic rather than polemic handling of religious plurality This raises the urgent question of how normal transconfessional and even transreligious interaction was produced in a context of highly sharpened and always present reflexivity on religious differences Our volume takes up this question and explores it from an interdisciplinary and interconfessional perspective The title **Forgetting Faith** raises the question whether it was necessary or indeed possible to sidestep religious issues in specific contexts and for specific purposes This does not mean however to describe early modern culture as a process of secularization Rather the collection invites discussion of the specific ways available to deal with confessional conflict in an oblivional mode precisely because faith still mattered more than many other social paradigms emerging at that time such as nationhood ethnic origin or class defined through property

Forgotten Religions (including Some Living Primitive Religions) Vergilius Ferm, 1950 The Triad of Truth: Exploring the Intersections of Religion, Philosophy, and Science Haribhai Naranbhai Jadav, 2025-08-07 Man has lived divided for too long science in onehand religion in the other and philosophy wandering in between trying to make sense of both But truth is not fragmented existence is not divided into departments Science philosophy and religion are not enemies they are three dimensions of the same quest Science is the

language of the measurable It asks How does this universe function It seeks precision clarity the mechanisms of existence Philosophy is the longing to know the deeper meaning It asks Why is there something rather than nothing It questions it wonders it seeks the hidden poetry of the cosmos Religion is the heartbeat of devotion It does not ask it trusts It feels the presence of something beyond logic beyond intellect It is not about proving it is about experiencing To see them as separate is to remain blind The truth is one but the seekers are many

Speculative Television and the Doing and Undoing of Religion Gregory Erickson,2022-09-16 This book explores the concept that as participation in traditional religion declines the complex and fantastical worlds of speculative television have become the place where theological questions and issues are negotiated understood and formed From bodies robots and souls to purgatories and post apocalyptic scenarios and new forms of digital scripture the shows examined from Buffy the Vampire Slayer to Westworld invite their viewers and fans to engage with and imagine concepts traditionally reserved for religious spaces Informed by recent trends in both fan studies and religious studies and with an emphasis on practice as well as belief the thematically focused narrative posits that it is through the intersections of these shows that we find the reframing and rethinking of religious ideas This truly interdisciplinary work will resonate with scholars and upper level students in the areas of religion television studies popular culture fan studies media studies and philosophy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Religious Dynamics under the Impact of Imperialism and Colonialism Björn Bentlage,Marion Eggert,Hans Martin Krämer,Stefan Reichmuth,2016-10-11 This sourcebook offers rare insights into a formative period in the modern history of religions Throughout the late 19th and the early 20th centuries when commercial political and cultural contacts intensified worldwide politics and religions became ever more entangled This volume offers a wide range of translated source texts from all over Asia the Middle East and Europe thereby diminishing the difficulty of having to handle the plurality of involved languages and backgrounds The ways in which the original authors some prominent and others little known thought about their own religion its place in the world and its relation to other religions allows for much needed insight into the shared and analogous challenges of an age dominated by imperialism and colonialism

Present-day Trends in Religious Education Erwin Leander Shaver,1928

The Feeling of Forgetting John Corrigan,2023-07-06 The dual traumas of colonialism and slavery are still felt by Native Americans and African Americans as victims of ongoing cycles of white violence toward people of color In The Feeling of Forgetting John Corrigan trains our attention on an underexamined aspect of this historical trauma the trauma experienced by white Americans as perpetrators of this violence By tracing the practices of remembering and forgetting in the Christian tradition Corrigan shows how experiences of racial violence and efforts on the part of white Americans to deliberately forget race are drivers of Christian nationalism and white supremacy White trauma Corrigan says is detectable as an underground river in American culture Sometimes it is powerfully joined with

evangelical Christianity and surfaces at times in acts of brutality terrorism and insurrection The Feeling of Forgetting is an attempt to understand how that process occurs and how it is braided with the trauma of victims so that we might be better positioned to address both
