My journey toward this field began during my undergraduate studies in Computer Science at **Education Corp**, where I discovered a passion for leveraging data to drive strategic decision-making in businesses, particularly in the realm of business intelligence and data-driven strategies.

During my studies, I focused on courses such as Data Structures, Database Management, and Machine Learning. One of my notable projects involved developing an algorithm for sentiment analysis of social media data, which earned recognition at our university's annual research symposium.

In my current role as a **[Your Current Company Name]**, I am responsible for extracting insights from large datasets to guide marketing strategies for our clients. I have led projects to optimize marketing campaigns, resulting in a 15% increase in conversion rates for a major e-commerce client.
