**Global Instability** S. McBride, L. Dobuzinskis, Marjorie Griffin Cohen, J. Busumtwi-Sam, 2012-12-06 *Global Instability Uncertainty and New Visions in Political Economy* presents a series of papers that address the political consequences of globalization for states and their populations while exploring the issue of alternatives to the model of globalization we are presently experiencing. The focus moves from the world of international agreements to the national and sub-national dilemmas that are posed by attempting to manage a set of global developments within a given territory. The initial chapter by Daniel Drache explores a still-born post-war international organization, the International Trade Organization, that offers a different vision of how a globally integrated economy might operate. A number of papers then explore the challenges posed by today's globalization, including currency instability in an environment of financial deregulation, the rights conferred on investors by the North American Free Trade Agreement, and the progressive liberalization of trade in services built into the General Agreement on Trade in Services.

*Fracture Mechanics of Ceramics* R. C. Bradt, D. P. H. Hasselman, F. F. Lange, 2012-12-06 These volumes constitute the Proceedings of a Symposium on the Fracture Mechanics of Ceramics held at the Pennsylvania State University, University Park, Pennsylvania, July 11, 12, and 13, 1973. The theme of the symposium focussed on the mechanical behavior of brittle ceramics in terms of the characteristics of cracks. The 52 contributed papers by 87 authors present an overview of the current understanding of the theory and application of fracture mechanics to brittle ceramics. The program chairmen gratefully acknowledge the financial assistance for the Symposium provided by the Office of Naval Research, the College of Earth and Mineral Sciences of the Pennsylvania State University, the Materials Research Center of Lehigh University, Bethlehem, Pennsylvania, and Westinghouse Research Laboratories, Pittsburgh, Pennsylvania. Special appreciation is extended to the expert organization provided by the J. Orvis Keller Conference Center of the Pennsylvania State University. In particular, Mrs. Patricia Ewing should be acknowledged for the excellent program organization and planning. Dean Harold J. O'Brien, who was featured as the after-dinner speaker and who presented a most stimulating talk on the communication between people, also contributed to the success of the meeting. Finally, we also wish to thank our joint secretaries for the patience and help in bringing these Proceedings to press.
