Global Monetary System After The Fall Of:

Globalization and the Reform of the International Banking and Monetary System O. Hieronymi, 2009-11-04 The book argues that a successful monetary and banking reform requires a rollback of monetary nationalism and return to monetary internationalism trust in the banking system with its basic functions restored a balance between competition and solidarity in order to assure political and social acceptance of globalization

The Global Monetary System After the Fall of the Soviet Empire Miklós Szabó-Pelsőczy, 1995 This book is a collection of papers presented at a conference held at Castle Szirak Hungary in memoriam of Robert Triffin the Belgian American economist who taught at Yale 1958 1977 From 1946 almost to his death he was a leading contributor to the creation of the post war international monetary system as embodied in the European Payments Union 1950 the First Amendment of the International Monetary Fund 1969 and the European Monetary System 1979

The Future of the Global Financial System: Downfall or Harmony Elena G. Popkova, 2018-11-03 This book gathers the best papers presented at the conference The Future of the Global Financial System Downfall or Harmony which took place in Limassol Cyprus on April 13 14 2018 Organized by the Institute of Scientific Communications Volgograd Russia the conference chiefly focused on reassessing the role and meaning of the global financial system in the modern global economy in light of the crisis that began in 2008 and can still be observed in many countries and on developing conceptual and applied recommendations on spurring the development of the global financial system All works underwent peer review and conform to strict criteria including a high level of originality more than 90% elements of scientific novelty contribution to the development of economic science and broad possibilities for practical application The target audience of this scientific work includes postgraduates lecturers at higher educational establishments and researchers studying the modern global financial system Based on the authors conclusions and results readers will be equipped to pursue their own scientific research The topics addressed include but are not limited to the following issues which are interesting for modern economic science and practice financial globalization the role of finances in the global economy perspectives of transition in the financial system from part of the infrastructure to a new vector of development in the global economy in the 21st century reasons for the crisis of the modern financial system and ways of overcoming it problems and perspectives regarding the harmonization of the global financial system and scenarios of development for the global financial system The content is divided into the following parts development of financial systems at the micro meso and macro levels financial infrastructure of the modern economy legal issues of development of the modern financial system and management of the global financial system

The Disintegration of the Worlds Financial System Rolf A. F. Witzsche, 2003

Building Trust in the International Monetary System Giovanni Battista Pittaluga, Elena Seghezze, 2021-07-15 This book presents the evolution of the international monetary system from the gold standard to the monetary system in force today It adopts a political economy approach emphasizing the economic and political conditions under which an international monetary system

can come into existence and be maintained over time This approach highlights how the gradual transition in the international context from commodity money to fiat money has been led by the need for greater elasticity of money supply and smooth adjustments This transition however raises the issue of how to guarantee over time the value of a money devoid of intrinsic value By presenting a historical evolution the book explains how the existence of an international monetary system based on money without intrinsic value can only occur when a particular balance of power exists at the international level that allows for the production of trust in a fiat money The book is a must read for scholars researchers and students in the fields of economic history and international monetary economics interested in better understanding the evolution of the international monetary system A History of the Monetary Systems of France, and Other European States Alexander Del Mar,1903
