Global Responsibilities Andrew Kuper, 2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company Prioritizing Global Responsibilities Luke Glanville, James Pattison, 2024-06-24 States face multiple ongoing and emerging challenges from climate change to global disease mass atrocities to forced displacement humanitarian crises to entrenched global poverty and are constrained by material and political limits to the amount of resources that they can devote to these issues How should states decide which issues to prioritize and which crises to address *Prioritizing Global Responsibilities* answers this question by proposing a two level account of just prioritization that aims to be both philosophically sound and practically relevant The authors assess several potential prioritization principles including diversification culpability urgency disadvantage and national interest and argue that states should prioritize issues where they can assist most effectively and where they can help those who are most underprivileged *The Routledge Handbook on Responsibility in International Relations* Hannes Hansen-Magnusson, Antje Vetterlein, 2021-07-29 What does responsibility mean in International Relations IR This handbook brings together cutting edge research on the critical debates about responsibility that are currently being undertaken in IR theory This handbook both reflects upon an emerging field based on an engagement in the most crucial theoretical debates and serves as a foundational text by showing how deeply a discussion of responsibility is embedded in broader questions of IR theory and practice Contributions cover the way in which responsibility is theorized across different approaches in IR and relevant neighboring disciplines and demonstrate how responsibility matters in different policy fields of global governance Chapters with an empirical focus zoom in on particular actor constellations of emerging states international organizations political movements or corporations or address how responsibility matters in structuring the politics of global commons such as oceans resources or the Internet Providing a comprehensive overview of IR scholarship on responsibility this accessible and interdisciplinary text will be a valuable resource for scholars and students in many fields including IR international law political theory global ethics science and technology area studies development studies business ethics and environmental and security governance The State and Cosmopolitan Responsibilities Richard Beardsworth, Garrett Wallace Brown, Richard Shapcott, 2019 This book explores the role that states might play in promoting a cosmopolitan condition as an agent of cosmopolitanism rather than an obstacle to it In doing so the book seeks to develop recent arguments in favour of locating cosmopolitan moral and political responsibility at the state level as either an alternative to or a corollary of cosmopolitanism as it is more commonly understood qua requiring transnational or global bearers of responsibility As a result the contributions in this volume see an on going role for the state but also its transformation perhaps only partially into a more cosmopolitan minded institution instead of a purely national or particularistic one It therefore makes the case that the state as a form of political community can be reconciled with various form of cosmopolitan responsibility In this way the book will address the question of how states in the present

and in the future can be better bearers of cosmopolitan responsibilities

Responsibility and Responsibilisation in Education Christine Halse, Catherine Hartung, Jan Wright, 2019-10-23 Concerns with the nature of and relationship between responsibility and responsibilisation pervade contemporary social political and moral life This book turns the analytical lens on the ways in which responsibility and responsibilisation operate in diverse educational settings and relationships and social policy and geographical contexts in the USA Europe the UK New Zealand and Australia Scholars have sought to explain the genealogy and the m range of rationalities technologies bio politics and modes of governmentality that bring responsibility and responsibilisation into being how they act on and are taken up by individuals groups and organisations and the risks and possibilities they create and delimit for individuals social collectives and their freedoms Contributors to this collection have diverse views and perspectives on responsibility and responsibilisation This disagreement is a strength It underlines the importance of unravelling both the differences and similarities across scholars and contexts It also issues a salutatory warning about assumptions that reduce the complex concepts of responsibility and responsibilisation to simplistic fixed categories or to generalising and universalising single cases or experiences to all areas of education This volume was originally published as a special issue of Discourse Studies in the Cultural Politics of Education

Special Responsibilities Mlada Bukovansky, Ian Clark, Robyn Eckersley, Richard MacKay Price, Christian Reus-Smit, Nicholas J. Wheeler, 2012 The language of special responsibilities is ubiquitous in world politics with policymakers and commentators alike speaking and acting as though particular states have or ought to have unique obligations in managing global problems Surprisingly scholars are yet to provide any in depth analysis of this fascinating aspect of world politics This path breaking study examines the nature of special responsibilities the complex politics that surround them and how they condition international social power The argument is illustrated with detailed case studies of nuclear proliferation climate change and global finance All three problems have been addressed by an allocation of special responsibilities but while this has structured politics in these areas it has also been the subject of ongoing contestation With a focus on the United States this book argues that power must be understood as a social

phenomenon and that American power varies significantly across security economic and environmental domains A Global Ethic and Global Responsibilities Hans Küng,1998 This book contains the text of the Universal Declaration of Human Responsibilities an account of the historical background to it a discussion of its significance and responses from around the world **Special Responsibilities** Mlada Bukovansky,Ian Clark,Robyn Eckersley,Richard MacKay Price,Christian Reus-Smit,Nicholas J. Responsibilities Council of Europe Publishing,2011 The need to develop collective skills to acquire a shared long term vision and to manage change is evident given that resources are limited and there is no such thing as complete independence or immunity from the damaging effects of other people s acts or failures to act Current trends are having a significant effect on both the scope and the substance of specific responsibilities individual or collective voluntary or statutory In addition extreme interdependence exacerbates the differences between values concepts of well being and interests potentially giving rise to mutually destructive conflicts wastage of resources and externally negative consequences Hence the Council of Europe s proposal to adopt the concept of shared social responsibility as a vital adjunct to specific responsibilities to make them more meaningful In accordance with this concept which is the subject of a charter addressed to governments and to all stakeholders all parties are encouraged to **Global Justice** Ian Shapiro,Lea Brilmayer,1999-04-01 Though perhaps still in its infancy globalization has quickly become one of the most dramatic phenomena in recent human history As the international mobility of capital continues to accelerate and the information revolution renders the idea of a global village ever more vivid we need to ask what effect this globalization is having on the citizens of this increasingly interconnected world What conflicts arise as markets merge and multinational corporations acquire a level of influence and power that increasingly challenges governmental authority How do we now distinguish between the local and the national and international and prioritize our commitments to each How has globalization affected our beliefs about rights justice the distribution of wealth nationalism statism and responsibility and as importantly our ability to act on these beliefs Bringing together prominent scholars from the U S and England to address these crucial questions Global Justice is as are all NOMOS

Global Civics Hakan Altınay, 2011 This thoughtful book debates civics in a universal context It clearly illustrates that we cannot achieve the cooperation that is needed for a globalizing century without developing some form of global civics

Global Civics Hakan Altınay, 2011-03-01 The simple yet challenging goal of this book is to deliberate the legitimacy and advance the feasibility of an important new concept the notion of global civics We cannot achieve the international cooperation that is needed for a globalizing and interdependent century without embracing and implementing this important concept The first section of *Global Civics* is a presentation of the overall idea itself the second section consists of diverse assessments from around the world of the concept and where it currently stands The third section discusses various options for a global civics curriculum Praise for the Global Civics Program I agree with Hakan Altınay that in order to navigate our global interdependence we need processes where we all think through our own responsibilities toward other fellow humans and discuss our answers with our peers A conversation about a global civics is indeed needed and university campuses are ideal venues for these conversations to start We should enter this conversation with an open mind and not insist on any particular point of view The process is the key and we should not wait any longer to start it Martti Ahtisaari 2008 Nobel Peace Laureate The growing interconnectivity among people across the world is nurturing the realization that we are all part of a global community This sense of interdependence commitment to shared universal values and solidarity among peoples across the world can be channeled to build enlightened and democratic global governance in the interests of all I hope that universities and think tanks around the world will deploy their significant reservoirs of knowledge and creativity to develop platforms to enable students to study and debate these issues This project is a contribution toward that goal and I look forward to following it closely Kofi Annan Former Secretary General of the United Nations 2001 Nobel Peace Laureate **A History of National Service in America** Peter Shapiro, 1994 **Handbook on Responsible Leadership and Governance in Global Business** Jonathan P.
