*Authenticity and Belonging in the Northern Soul Scene* Sarah Raine,2020-06-29 This book which builds on a three year immersive ethnographic study argues that what scene participants do and say within the northern soul scene constitutes a claim to belong For younger members making claims to belong is problematic in a scene where dominant notions of authenticity held by insiders are rooted in a particular past the places people events and soundscapes of particular venues during the 1970s In order to engage with this past young men and women participate in a range of discursive practices This book argues that these practices and the ways they intersect and deviate from dominant notions of authenticity represent shared and individual negotiations of the true soulie In doing so it reveals the rich experiences of the younger generation of
