Conference on Object Oriented Programming ECOOP 2013 held in Montpellier France in July 2013 The 29 papers presented in this volume were carefully reviewed and selected from 116 submissions They are organized in topical sections on aspects components and modularity types language design concurrency parallelism and distribution analysis and verification modelling and refactoring testing profiling and empirical studies and implementation *Object-Oriented Technology and Computing Systems Re-Engineering* H. S. M. Zedan,A Cau,1999-10-01 This book delivers the latest developments in object technology and their impact in computing systems re engineering Object oriented programming is here shown to provide support for constructing large scale systems that are cheaply built and with reusable components adaptable to changing requirements and use efficient and cost effective techniques Internationally recognised authorities from Finland France Germany Italy Poland Spain the UK and the USA here record their research and development work on the industrial techniques and structured object oriented methodologies in forward and reverse engineering of computing systems This book takes stock of progress of that work showing its promise and feasibility and how its structured technology can overcome the limitations of forward engineering methods used in industry Forward methods are focused in the domain of reverse engineering to implement a high level of specification for existing software The book contains the selected quintessential content of the first UK Colloquium on Object Technology and Systems Re Engineering held at Oxford University in 1998 The conference was sponsored by British Telecom Laboratories EMSI limited and the OOSP Specialised Group of The British Computer Society Delivers the latest developments in object technology and their impact in computing systems re engineering Provides support for constructing large scale systems that are cheaply built and with reusable components adaptable to changing requirements and use efficient and cost effective techniques Contains the content of the first UK Colloquium on Object Technology and Systems Re Engineering held at Oxford University in 1998 *COBOL Programmers Swing with Java* E. Reed Doke,Bill C. Hardgrave,Richard A. Johnson,2004-12-28 In the fast moving world of information technology Java is now the number 1 programming language Programmers and developers everywhere need to know Java to keep pace with traditional and web based application development COBOL Programmers Swing with Java provides COBOL programmers a clear easy transition to Java programming by drawing on the numerous similarities between COBOL and Java The authors introduce the COBOL programmer to the history of Java and object oriented programming and then dive into the details of the Java syntax always contrasting them with their parallels in COBOL A running case study gives the reader an overall view of application development with Java with increased functionality as new material is presented This new edition features the development of graphical user interfaces GUI s using the latest in Java Swing components The clear writing style and excellent examples make the book suitable for anyone wanting to learn Java and OO programming whether they have a background in COBOL or not [InfoWorld](#) ,1990-10-22 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Visual C++**
