Bank, 1996 **Regulatory Reform in Hungary** Organisation for Economic Co-operation and Development, 2000 OECD's

2000 review of regulatory reform in Hungary It finds that after ten years of determined reform Hungary has constructed the

legal and policy frameworks consistent with market democracy and is nearing completion of an historic economic transition. This challenging process required extensive regulation and institution building as well as massive deregulation and has generated significant economic benefits. Today convergence with the EU and achievement of OECD best practices still represent daunting tasks. But in most areas Hungary faces challenges much like those of other OECD countries in establishing the quality regulatory regimes needed to support good government and sustainable economic growth. Hungary's main objectives now are to bring market performance into line with its peers through strengthening competition and improving regulatory governance and social protections. Further reforms will bring important gains in creating jobs, improving sectoral and regional performance and reducing the costs of public policies.

**Managing Business in Hungary** József Berács, Attila Chikán, 1999

**Back to a Market Economy** József Temesi, Ernő Zalai, István Ábel, 1999. In this text the authors analyze the way Hungary has recovered economically over the last decade. Their answers to the sophisticated conceptual questions of the Hungarian transformation procedure are far from a simplified view of the recent situation. The past ten years are characterized by achievements and failures, hopes and disappointments, economic results and social problems.

**When the Past Meets the Present** Zinaida Karapetyan, 2005

**India and Hungary** Nirmala Joshi, 2000. The focus of the book is on some of the issues that have arisen in the process of the emergence of the new world order. The collection of articles of Indian and Hungarian scholars provides the reader with a useful insight into our understanding of the new world order for us in India. It is important to know and understand these changes and adjust accordingly. Viewed from the perspective of Hungarian thinking on these problems is highly important because Hungary, as located in Central Europe and a member of the erstwhile socialist bloc, is today deeply involved in the process of change. Scholars and students of international relations would particularly benefit by these various contributors.
