Frog Mountain Blues:

Frog Mountain Blues Charles Bowden, 2018-10-02 The Santa Catalina Mountains north of Tucson whose summit is called Frog Mountain by the Tohono O odham offers up to the citizens of the basins below a wilderness in their own backyard When it was first published in 1987 Frog Mountain Blues documented the creeping sprawl of new development up the Catalinas foothills Today that development is fully visible but Charles Bowden s prescience of the urgency to preserve and protect a sacred recreational space remains as vivid as ever Accompanied by Jack W Dykinga s photographs from the original work this book continues to convey the natural beauty of the Catalinas and warns readers that this unique wilderness could easily be lost As Alison Hawthorne Deming writes in the new foreword Frog Mountain Blues continues to be an important book for learning to read this place through the eyes of experience and history and Bowden remains a sobering voice for facing our failures in protecting what we love in this time of global destruction for taking seriously the power of language to set ourselves right again with the enormous task of living with purpose and presence and care on the land

The Myth of Emptiness and the New American Literature of Place Wendy Harding, 2014-10-01 From the moment the first English speaking explorers and settlers arrived on the North American continent many have described its various locations and environments as empty Indeed much of American national history and culture is bound up with the idea that parts of the landscape are empty and thus open for colonization settlement economic improvement claim staking taming civilizing cultivating and the exploitation of resources In turn most Euro American nonfiction written about the landscape has treated it either as an object to be acted upon by the author or an empty space unspoiled by human contamination to which the solitary individual goes to be refreshed and rejuvenated In The Myth of Emptiness and the New American Literature of Place Wendy Harding identifies an important recent development in the literature of place that corrects the misperceptions resulting from these tropes Works by Rick Bass Charles Bowden Ellen Meloy Jonathan Raban Rebecca Solnit and Robert Sullivan move away from the tradition of nature writing with its emphasis on the solitary individual communing with nature in uninhabited places to recognize the interactions of human and other than human presences in the land In different ways all six writers reveal a more historically complex relationship between Americans and their environments In this new literature of place writers revisit abandoned threatened or damaged sites that were once represented as devoid of human presence and dig deeper to reveal that they are in fact full of the signs of human activity These writers are interested in the role of social political and cultural relationships and the traces they leave on the landscape Throughout her exploration Harding adopts a transdisciplinary perspective that draws on the theories of geographers historians sociologists and philosophers to understand the reasons for the enduring perception of emptiness in the American landscape and how this new literature of place works with and against these ideas She reminds us that by understanding and integrating human impacts into accounts of the landscape we are better equipped to fully reckon with the natural and cultural crisis that engulfs
