Either Way Dead:

Identities for Life and Death Robert J. Pellegrini, 2010-09 This book is all about stories The stories that shape our identities and how those identities shape our destinies for better or worse for good or evil in humanizing or dehumanizing ways Working from the Shakespearian metaphor All the world s a stage and all the men and women merely players Pellegrini argues that only by understanding how our storied selves develop can we acquire the tools to modify the roles they dictate for us to play on the stage in the theater of real life The author deconstructs a wide variety of what he calls toxic dehumanizing death oriented self scripts as well as creative humanizing life oriented narratives of groups as well as individuals Following the Native American parable of two wolves engaged in mortal combat within us one good the other evil the fundamental premise here is that our identity determines which of our inner wolves we feed and thus which of them will prevail Pellegrini maintains that what s at stake in this battle between humanity s collective inner wolves is not just the quality but the very survival of life on earth From this perspective as individual and group selves are humanizingly or dehumanizingly narratized by the way we exercise our God given free will in the choices we make so shall life be impacted throughout the world To advance the cause of detoxifying identities in our global society the author presents a rationale and program for an international grass roots social movement aimed at achieving a universal sense of belongingness to a global life system You can watch and listen to a video in which Dr Bob Pellegrini talks about this book and why he wrote it by entering Identities for Life and Death in the search bar at youtube com

Facing Our Mortality Without Fear: Advice from the Great Philosophers Robert Bonser, 2011-08-01 The fear of our mortality is a common and natural fear among humans There is a proud tradition in philosophy of being able to offer consolation and comfort for the trials and tribulations of life including the greatest and final trial death Socrates said that whether death is extinction or the persistence of the soul in an afterlife it is nothing to fear The first half of the book Montaigne on the Fear of Death shows how we can overcome our fear even if death is extinction and the second half A Philosopher s View of Heaven presents a positive portrayal of heaven based on reason rather than revelation and one which helps to make sense of our earthly life **The Routledge**
