Egyptian Myth and Legend
Donald Alexander Mackenzie, In this volume the myths and legends of ancient Egypt are embraced in a historical narrative which begins with the rise of the great Nilotic civilization and ends with the Gr co Roman Age The principal deities are dealt with chiefly at the various periods in which they came into prominence while the legends are so arranged as to throw light on the beliefs and manners and customs of the ancient people Metrical renderings are given of such of the representative folk songs and poems as can be appreciated at the present day Egyptian mythology is of highly complex character and cannot be considered apart from its racial and historical aspects The Egyptians were as a Hebrew prophet has declared a mingled people and this view has been confirmed by recent ethnological research the process of racial fusion begun in the Delta at the dawn of history says Professor Elliot Smith spread through the whole land of Egypt In localities the early Nilotic inhabitants accepted the religious beliefs of settlers and fused these with their own They also clung tenaciously to the crude and primitive tribal beliefs of their remote ancestors and never abandoned an archaic conception even when they acquired new and more enlightened ideas they accepted myths literally and regarded with great sanctity ancient ceremonies and usages They even showed a tendency to multiply rather than to reduce the number of their gods and goddesses by symbolizing their attributes As a result we find it necessary to deal with a bewildering number of deities and a confused mass of beliefs many of which are obscure and contradictory But the average Egyptian was never dismayed by inconsistencies in religious matters he seemed rather to be fascinated by them There was strictly speaking no orthodox creed in Egypt each provincial centre had its own distinctive theological system and the religion of an individual appears to have depended mainly on his habits of life The Egyptian as Professor Wiedemann has said never attempted to systematize his conceptions of the different divinities into a homogeneous religion It is open to us to speak of the religious ideas of the Egyptians but not of an Egyptian religion In our introduction we deal with the divergent character of some of the ancient myths so as to simplify the study of a difficult but extremely fascinating subject It is shown that one section of the people recognized a Creator like Ptah who begot himself and shaped his limbs ere he fashioned the Universe while another section perpetuated the idea of a Creatrix who gave birth to all things At the dawn of history these rival conceptions existed side by side and they were perpetuated until the end It is evident too that the theologies which were based on these fundamental ideas had undergone ere the fusion of peoples occurred a sufficiently prolonged process of separate development to give them a racial or at any rate a geographical significance As much is suggested by the divergent ideas which obtained regarding the world One section for instance had conceived of land surrounded by sky supporting mountains peopled by gods and giants round which the sun ass galloped to escape the night serpent another section believed that the world was embraced by the Great Circle

Ocean and that the Nile flowed from sea to sea a third conception was of a heavenly and an underground Nile There were also two Paradises the Osirian and the Ra sun god s Osiris judged men according to their deeds He was an agricultural deity and the early system of Egyptian ethics seems to have had its origin in the experiences enshrined in the text Whatsoever a man soweth that shall he also reap Admission to the Paradise of the sun cult was secured on the other hand by the repetition of magical formul Different beliefs obtained also regarding the mummy In the Book of the Dead it would appear that the preservation of the body was necessary for the continued existence of the soul Herodotus however was informed that after a period of 3000 years the soul returned to animate the dead frame and this belief in transmigration of souls is illustrated in the Anpu Bata story and is connected with a somewhat similar conception that the soul of a father passed to a son who thus became the image of his sire as Horus was of Osiris and husband of his mother Of special interest in this connection are the various forms of the archaic chaos egg myth associated with the gods Ptah Khn m Seb Osiris and Ra As the European giant hides his soul in the egg which is within the duck which is within the fish which is within the deer and so on and Bata hides his soul in the blossom the bull and the tree ere he becomes husband of his mother so does Osiris hide his essence in the shrine of Amon while his manifestations include a tree the Apis bull the boar the goose and the Oxyrhynchus fish Similarly when Set was slain he became a roaring serpent a hippopotamus a crocodile or a boar The souls of Ra Ptah and Khn m are in the chaos egg like two of the prominent Hindu and Chinese gods Other Egyptian deities who are hidden include Amon Sokar and Neith This persistent myth which appears to have been associated with belief in transmigration of souls may be traced even in Akhenaton s religion We have Shu atmosphere god in his Aton sun disk and a reference in the famous hymn to the air of life in the egg There can be little doubt that the Transmigration theory prevailed at certain periods and in certain localities in ancient Egypt and that the statement made by Herodotus was well founded despite attempts to discredit it It is shown that the conception of a Creator was associated with that form of earth air and water worship which was perpetuated at Memphis where the presiding Deity was the hammer god Ptah who resembles the Chinese Pan ku Indra of the Aryans Tarku and Sutekh of Asia Minor Hercules Thor c The Creatrix on the other hand was more closely associated with lunar earth and water worship and appears to have been the principal Deity of the Mediterranean race which spread into Asia Minor and Europe In Scotland for instance as we show she is called Cailleach Bheur and like other archaic tribal deities and ghosts she was the enemy of mankind Similarly the Egyptian goddesses Sekhet and Hathor were destroyers and Tefnut was goddess of plagues Even the sun god Ra produced calamity after thy Osiris s heart as one of the late temple chants puts it In the chapter dealing with animal worship the racial aspect of early beliefs which were connected with fixed and definite ceremonies is illustrated in the Horus Set myth The black pig was Set the devil in Egypt pork was taboo and the swineherd was regarded as an abomination and not allowed to enter temples The Gauls and Ach ans on the other hand honoured the swineherd and ate pork freely while in the Teutonic Valhal and the Celtic Irish Paradise swine s flesh was the reward of heroes In Scotland

however the ancient prejudice against pork exists in localities even at the present day and the devil is the black pig Professor Sir John Rhys in his Celtic Folklore records that in Wales the black sow of All Hallows was similarly regarded as the devil Even in parts of Ireland the hatred of pork still prevails especially among certain families This evidence considered with that afforded by the study of skull forms suggests that Mediterranean racial ideas may not yet be wholly extinct in our own country Strange to say writes Mr R N Bradley in his recent work on Malta and the Mediterranean Race it is in these lands remote from the origin that some of the best indications of the Mediterranean race are to be found The Gaulish treatment of the boar appears to be Asiatic Brahma in one of the Hindu creation myths assumes the form of a boar the lord of creatures and tosses up the earth with his tusks from the primordial deep Another myth which seems to have acquired a remote racial colouring is the particular form of the dragon story which probably radiated from Asia Minor The hero is represented in Egypt by Horus with his finger on his lips in his character as Harpocrates as the Greeks named this mysterious form of the god The god Sutekh of Rameses II as we show was also a dragon slayer So was Hercules who fought with the Hydra and Thor who at Ragnarok overcame the Midgard Serpent Sigurd Siegfried the Teutonic heroes and the Celtic Finn mac Coul suck a finger or thumb after slaying the dragon or one of its forms and cooking part of it to obtain knowledge or understand the language of birds In an Egyptian folk tale Ahura after killing the Deathless Snake similarly understands the language of birds fishes Harpocrates appears to be the god Horus as the dragon slaying Sutekh the imported legend being preserved in the Ahura tale of the Empire period when Egypt received so many Asiatic immigrants that the facial type changed as the statuary shows Professor Elliot Smith considers that while the early Egyptian was the representative of his kinsman the Neolithic European the immigrant population into both Europe and Egypt represented two streams of the same Asiatic folk Racial myths appear to have followed in the tracks of the racial drift In our historical narrative the reader is kept in touch with the great civilizations of the Cretans Hittites Babylonians Assyrians which influenced and were influenced by Egypt Special attention is also devoted to Palestine and the great figures in Biblical narrative Joseph Moses Isaiah Jeremiah Nahum and the notable kings of Israel and Judah There are numerous quotations from the Old Testament and especially from the prophets who dealt with the political as well as the religious problems of their times To students of the Bible this part of the volume should make special appeal It is impossible to appreciate to the full the power and sagacity of Isaiah's sublime utterances without some knowledge of the history of ancient Egypt

The Egyptian Myths Garry J. Shaw, 2014-04-18 An authoritative guide to the Egyptian myths that sheds new light on an ancient way of understanding the world This survey of Egyptian mythology explores how the ancient Nile dwellers explained the world around them It delves into the creation and evolution of the world and the reigns of the gods on earth before introducing us to the manifestations of Egypt's deities in the natural environment the inventive ways in which the Egyptians dealt with the invisible forces all around them and their beliefs about life after death Through his engaging narrative Garry Shaw guides us through the mythic adventures of such famous deities

as Osiris the god murdered by his jealous brother Seth the magical and sometimes devious Isis who plotted to gain the power of the sun god Re and Horus who defeated his uncle Seth to become king of Egypt He also introduces us to lesser known myths such as the rebellions against Re Geb's quest for Re's magical wig and the flaying of the unfortunate god Nemty From stars and heavenly bodies sailing on boats to the wind as manifestation of the god Shu to gods goddesses ghosts and demons beings that could be aggressive helpful wise or dangerous Shaw goes on to explain how the Egyptians encountered the mythological in their everyday lives

Egyptian Myth and Legend Donald MacKenzie, 2015-05-31 Egyptian mythology is of highly complex character and cannot be considered apart from its racial and historical aspects The Egyptians were as a Hebrew prophet has declared a mingled people and this view has been confirmed by recent ethnological research the process of racial fusion begun in the Delta at the dawn of history says Professor Elliot Smith spread through the whole land of Egypt In localities the early Nilotic inhabitants accepted the religious beliefs of settlers and fused these with their own They also clung tenaciously to the crude and primitive tribal beliefs of their remote ancestors and never abandoned an archaic conception even when they acquired new and more enlightened ideas they accepted myths literally and regarded with great sanctity ancient ceremonies and usages They even showed a tendency to multiply rather than to reduce the number of their gods and goddesses by symbolizing their attributes As a result we find it

necessary to deal with a bewildering number of deities and a confused mass of beliefs many of which are obscure and contradictory. But the average Egyptian was never dismayed by inconsistencies in religious matters; he seemed rather to be fascinated by them. There was strictly speaking no orthodox creed in Egypt; each provincial centre had its own distinctive theological system and the religion of an individual appears to have depended mainly on his habits of life. The Egyptian as Professor Wiedemann has said never attempted to systematize his conceptions of the different divinities into a homogeneous religion. It is open to us to speak of the religious ideas of the Egyptians but not of an Egyptian religion. *Egyptian Mythology: Myths and Gods of Ancient Egypt* Sebastian Berg, 2021-08-14 Discover The Gods and Myths of Egyptian Mythology.
