Egyptian Statues:

Ancient Egyptian Statues Simon Connor, 2022-09-27 A fascinating richly illustrated study of the role and significance of ancient statues in Egyptian history and belief Why do ancient Egyptian statues so often have their noses hands or genitals broken Although the Late Antiquity period appears to have been one of the major moments of large scale vandalism against pagan monuments various contexts bear witness to several phases of reuse modification or mutilation of statues throughout and after the pharaonic period Reasons for this range from a desire to erase the memory of specific rulers or individuals for ideological reasons to personal vengeance war tomb plundering and the avoidance of a curse or simply the reuse of material for construction or the need to ritually deactivate and bury old statues without the added motive of explicit hostility toward the subject in question Drawing on the latest scholarship and over 100 carefully selected illustrations *Ancient Egyptian Statues* proceeds from a general discussion of the production and meaning of sculptures and the mechanisms of their destruction to review the role of ancient statuary in Egyptian history and belief It then moves on to explore the various means of damage and their significance and the role of restoration and reuse Art historian Simon Connor offers an innovative and lucidly written reflection on beliefs and practices relating to statuary and images more broadly in ancient Egypt showing how statues were regarded as the active manifestations of the entities they represented and the ways in which they could endure many lives before being finally buried or forgotten

Egyptian Statues Gay Robins,2008-03-04 For over three thousand years ancient Egyptian sculptors created statues of deities kings and elite officials and their families These were set up mainly in temples or tombs and played a vital role in temple and funerary ritual being places where non physical entities deities the royal ka spirit and the ka spirits of the dead could manifest themselves in this world The book begins by examining the materials and techniques employed by sculptors and the various statue types and poses that occur Next it explores the function of statues and the different contexts for which they were made This is followed by a chapter explaining the notion of the ideal image statues were not intended to be exact likenesses but rather ideal images reflecting the identity role and status of the subject The individual identity of a statue was usually provided by inscriptions and the various texts found on statues are discussed together with the different types of relief decoration that occur on statue surfaces A final chapter considers what was constant and what changed over time and looks at the influence that Egyptian statues had on the origins of monumental Greek sculpture
