Effective Business Meetings:

Effective Business Meetings Sorin Dumitrascu, 2020-11-14 Meetings are among the most expensive forms of communication in today's business environment so it's essential to make the investment worthwhile. No matter their format, effective meetings efficiently meet their objectives and encourage an atmosphere of open participation that's characterized by fairness and order. Effective meetings begin with careful preparation. This course outlines a five-step process for preparing for effective meetings. First, you'll learn how to clarify the purpose and objectives of a meeting. Second, you'll learn how to determine if the meeting is required or if a meeting alternative can fulfill the objectives. Third, you'll learn how to choose the best participants. Fourth, you'll learn how to create the agenda. And fifth, you'll learn how to prepare yourself and your participants for a successful meeting. The next time you need to prepare a meeting, the methods introduced in this course will help you make the most of you and your participants' valuable time. By making your meetings as effective as possible, you'll work to conserve company resources, establish a reputation as considerate and efficient, and attract greater contributions from your attendees. So why does one meeting succeed and another one fail? The reason could be that some meeting leaders are unsure of their responsibilities at each stage of a business meeting. Perhaps the meeting leader's opening comments set the wrong tone or maybe the discussion lost focus and was allowed to drift. There are different types of meetings, but most follow a similar trajectory. Whether it's a regular meeting or a task force meeting, the meeting leader should open the meeting with appropriate information and in the right tone. An effective meeting leader encourages full participation from the group to ensure the objectives are reached within the allotted time. To close the meeting, the leader summarizes the decisions arrived at and follows up on the actions that need to be taken. This course covers the skills and lessons that will help you to fulfill the key responsibilities of a meeting leader at each stage of a business meeting. You will learn about opening a meeting properly and closing it in the correct way. The course also demonstrates how to facilitate good decision making during a meeting, as well as how to manage time in a meeting. How you feel about meetings will likely depend on your own experience, whether meetings you've attended were effective and efficient or whether they were unfocused and out of control. But good meetings don't just happen. It takes a conscientious and ongoing effort to make meetings productive, worthwhile, and satisfying. As a meeting leader, understanding the characteristics of effective business meetings will help you take positive collaborative steps to address issues and make your own meetings more efficient, productive, timely, and enjoyable. This course deals with appropriate ways to address common problems of business meetings. You'll learn about the value of conducting effective meetings and about practices to evaluate effectiveness. You'll discover how to intervene appropriately to address problems that occur during meetings, including issues of decorum and productivity problems. And you'll learn about how to handle the special challenges of virtual meetings.

How to Lead an Effective Meeting (and get the results you want) Dick Massimilian,2016-06-05 It seems these days that everyone hates meetings How many times have you heard someone say We have too many meetings or I am booked so solid every day in meetings I never have time to get anything done or I m back to back But when you talk to people it isn t that they hate meetings it s that they don t like meetings in which nothing gets done No one is sure why the meeting was called or why half the people are in the room or what exactly is supposed to get done or what was decided We complain about meetings but we seem to attend more and more of them This book is for people who need to lead effective meetings in any context It is a blueprint for how to have your meetings work defined as meetings that achieve the results you want to achieve in the meeting and afterwards It s a how to guide for using the time you spend planning organizing and conducting meetings wisely It s about getting results through meetings Why are effective meetings important Meeting quality matters Well run organizations have well run meetings Sloppily run organizations have sloppily run meetings What are the signs of a bad meeting The meeting starts late There is no agenda The meeting runs over No one is sure what if anything was decided or accomplished The same meeting to discuss the same topic seems to be held over and over again No one knows what the next steps are or who is supposed to follow up whom for what Someone monopolizes the meeting and someone else talks in circles while yet someone else seems to simply rephrase and repeat what has already been said Nothing discourages people

whether volunteers or employees like feeling they are wasting their time Too many meetings waste time They sap morale and leave people frustrated or irritated This is a shame as leading an effective meeting is not rocket science once you have a blueprint If you have an allergic reaction to wasting time in meetings this book is for you It is divided into five principal sections Preparation Invitation Agenda Delivery Follow Up The sections outline the five phases of a meeting For your meeting to be successful again defined as a meeting that achieves the results you want to achieve you must execute each phase successfully Meetings versus Presentations The tips in this book are intended to apply to both meetings in which various people interact in a more or less informal setting and presentations occasions on which a speaker presents material to an audience in a structured more or less formal setting Some principles apply more directly to meetings others to presentations All are relevant to both
