The Effects of Hyper-inflation on Accounting Ratios Geoffrey Whittington,Victoria Saporta,Ajit Singh,1996 **The Effects of Hyper-inflation on Accounting Ratios** Geoffrey Whittington,Victoria Saporta,Ajit Singh,1997-01-01 World Bank Technical Paper No 370 Local land users and officials often have conflicting perceptions of and responses to land degradation issues This causes problems for officials in diagnosing and addressing the issue and is a major constraint on the successful implementation of policies and projects to address land degradation This study looks at the perception and response gap between officials and land users in the diagnosis and remedy of land degradation It also examines the dynamics of the loss of soil fertility and low productivity at the village level The study s findings will help shape investment programs to enhance land productivity in Sub Saharan Africa [The Effects of Hyper-Inflation on Accounting Ratios](#) Geoffrey Whittington, Hyper inflation can have a severe distortionary effect on the pattern of corporate finance which is apparent from company accounts A simple algorithm based upon the method of inflation accounting applied in Brazil is developed and applied to the accounts of Turkish listed companies for the period 1982 90 The adjusted figures give a more plausible picture of corporate profitability and growth and this suggests that the adjustment method is substantially successful The financing patterns emerging from the adjusted data support the proposition of Singh and Hamid 1992 and Singh 1995 that a the corporate sector in developing countries tends to rely more on external finance than on internal finance for growth and b among the external sources of funds it uses new share issues to a surprisingly high degree Further adjustments to the measurement of the external finance variable for Turkey and other countries also support this proposition This contradicts the quot pecking orderquot hypothesis which suggests that retained profits are the preferred source of finance and also runs contrary to the belief that the capital markets of developing countries are inadequate to support substantial corporate growth by external financing including equity financing **Contents of Recent Economics Journals** ,1997-12-19 *Publications Update* World Bank,1996 **World Bank Group Publications ...
