

The Most Popular Industry

in Every U.S. State

(After Healthcare and Medical Practices)

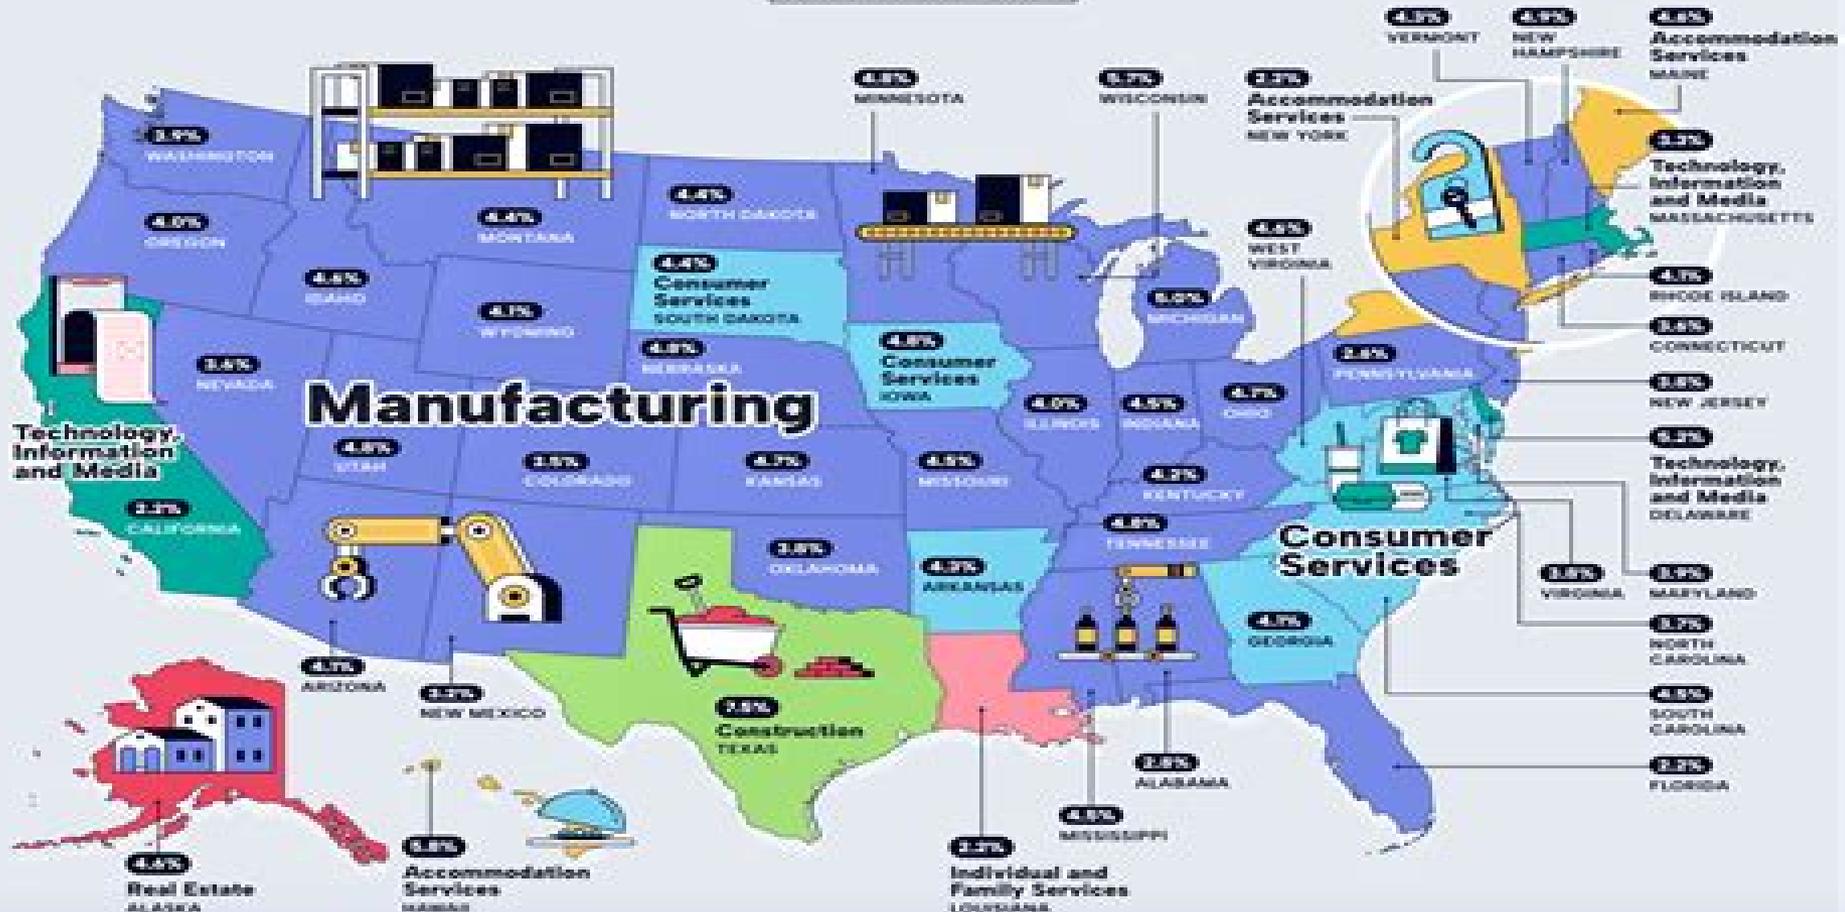

Healthcare is the dominant industry in the U.S., growing to a value of \$4.3 trillion in 2021 and accounting for 18.3% of America's GDP, according to the Centers for Medicare & Medicaid Services. But which sector is most popular in each U.S. state if we exclude hospitals and medical practices?

Manufacturing accounts for the third-largest head counts in 32 states, with Midwestern powerhouses Wisconsin (5.7%) and Michigan (5%) boasting the highest proportion of businesses. The two states produce \$64 and \$41 billion worth of goods each year, according to their respective manufacturers' associations.

■ % of Companies Per Industry

Methodology: We used LinkedIn's company search filters to count and rank approximately how many companies per industry are represented in each U.S. state from a total of more than 300 different industries. For this map, we excluded Healthcare, Insurance and Medical Practices, as they're listed as each state's most popular two industries. Professional Services are removed from the final rankings in order to account for companies that LinkedIn lists broadly categorized under a few similar and unrelated "most popular" industries.
