Star Patterns

### Findout Constellations

**What:**  
There is a lot of stars that make up constellations. Some of the most famous constellations are Orion, Ursa Major, and Ursa Minor. The stars in these constellations are connected by lines to form a pattern. This pattern is called a constellation.

**How:**  
You can find out about the constellations in the sky by looking at a star chart. A star chart is a map of the sky that shows the positions of the stars in the constellations. You can use a star chart to find out which constellations are visible in the sky at a certain time of the year.

**Why:**  
The constellations in the sky are important because they help us to understand the positions of the stars in the sky. They also help us to understand the history of the constellations.

**Where:**  
The constellations in the sky are visible in the northern hemisphere of the Earth. They are not visible in the southern hemisphere.
