FOOD ENCYCLOPEDIA

Everything you need to know about every food

FOOD! Some is fashionable and famous, some is fun and fabulous. But all of it is an absolute necessity.

Mind you, not every youngster you may care to speak to on the subject will agree that a plate full of boiled broccoli or Brussels sprouts is his or her idea of heaven on a plate.

Not all the average Aussie agree that stewed sheep's eyes as an entrée are pure bliss.

But 9 out of 10 will unanimously concur that a steak and kidney pie with buttered mashed potatoes and peas is good for the soul. Roast leg of lamb, or a wing rib with baked pumpkin and gravy made from the pan juices, is comforting on a winter's evening. And, folks, I agree wholeheartedly with them.

And I'm also sure they would agree with me that, although the food our parents served us as children and young adults is still high on our shopping lists, an array of food our elders didn't consume has become commonplace on our dining tables.

Pasta, for instance. When I was a boy, spaghetti was only eaten by Italians who drank wine out of bottles half covered in straw. No-one in their right mind ate raw fish except the Japanese. And as for spooning the innards of sea urchin into our mouth, or a sauce made from the yellow mustard-like brains of a lobster, the average Aussie would rather cut his or her throat.

All that has changed, thank goodness. Our foods, as well as our appreciation of them, is as sophisticated as any in the world. And our interest in what we eat has become a national hobby. Which is why I have put together this encyclopedia of food.

Now if someone asks you what is the difference between Ceylonese tea and Green tea, you can turn to the appropriate page to learn the answer. You'll now be able to learn the fascinating history of spices and whether or not Beef Stroganoff has onions in its make up and, indeed, who Stroganoff was anyway.

I've had fun writing this tome and I sincerely hope you enjoy delving through its pages.
