## **Foundations Under Fire:**

*Foundations Under Fire* Thomas C. Reeves,1970      **Foundations** Luc Tayart de Borms,2005-08-05 This book examines the evolving dynamics driving philanthropy as Western society struggles to meet today s many challenges The author takes a hard look at the sensitive issues of democratic legitimacy accountability and credibility in the context of civil society as well as the changing policy environment in which foundations operate He argues that effective philanthropy is impact driven and depends on a strategic mix of methodologies that reach beyond grant giving The arguments challenge the status quo and deliver a wake up call to philanthropists on both sides of the Atlantic The book intends to spark an ongoing debate as the sector strives to strengthen its relevance and make a real difference in a world that is becoming more complex than ever before About 80% to 90% of existing literature is from the Anglo Saxon perspective and written by academics This book represents a uniquely European perspective from a practitioner with more than 20 years experience in the field Because of foundations hefty and growing financial endowment the questions of value creation democratic legitimacy intergenerational transfer of wealth the payout rate and accountability are being debated The author offers a European perspective on these issues A new and dynamic philanthropy is emerging as foundations take on new roles in communities These roles are examined within the context of different civil society models A new role is emerging that of convenor or catalytic converter which brings various stakeholders together around a particular issue and then advocates for political and or social change The author ultimately argues for impact driven philanthropy and gives practical examples of how to get there Challenges in our globalized world require both local and global solutions The author urges European foundations to become more European and address the myriad challenges facing a reintegrated continent He also urges them to assume a stronger leadership role on global issues such as HIV AIDs poverty ethical challenges and drug policy      **Grants** Virginia P. White,2013-11-11      [Philanthropic Foundations in the Twentieth Century](#) Joseph C. Kiger,2000-01-30 In a readable coherent and succinct account Kiger surveys the changes that have taken place in U S foundations in the 20th century and describes our foundations as they exist today Opening with historical information on the emergence of large foundations at the beginning of the century the book discusses the major characteristics of foundations emphasizing that they are organized to give away rather than make money and identifies and discusses the major changes since 1950 In considering those changes the book considers such topics as growth and expansion diversification in the makeup of trustees and staff and governmental oversight and supervision In the increasing movement of foundations into the international sphere the book covers their international activities and the formation and operation of international centers and groups associated with them *Phlanthropic Foundations in the Twentieth Century* provides a useful overview of the growth development and operation of foundations      *The Politics of Foundations* Helmut Anheier,Siobhan Daly,2006-11-24 This book explores the roles and visions foundations have of and for themselves in the new Europe The leading contributors go beyond a quantitative profile of
