Alternative Asian Modernities Sanjay Kumar, Satya P. Mohanty, Archana Kumar, Raj Kumar, 2019-03-29 The conception of modernity as a radical rupture from the past runs parallel to the conception of Europe as the primary locus of global history. The essays in this volume contest the temporal and spatial divisions between past and present, modernity and tradition, and Europe's progress and Asia's stasis which the conventional narrative of modernity creates. Drawing on early modern Chinese and Indian history and culture, instead the authors of the book explore the provenance of modernity beyond the west to see it in a transcultural and pluralistic light. The central argument of this volume is that modernity does not have a singular core or essence, a causal centre. Its key features need to be disaggregated and new configurations and combinations imagined. By studying the Bhakti movement, Confucian democracy and the maritime and agrarian economies of China and India, this book enlarges the terms of debate and revisits devalued terms and concepts like tradition, religion, authority and rural as resources for modernity. This book will be of great interest to researchers and academicians working in the areas of history, Sociology, Cultural Studies, literature, geopolitics, South Asian and East Asian Studies.

Reader's Guide to Periodical Literature Supplement, 1923 *Bibliographisch repertorium van de wijsbegeerte*, 2004 **Max Weber** Joachim Radkau, 2009-03-02

Max Weber (1864-1920) is recognized throughout the world as the most important classic thinker in the social sciences; there is simply no one in the history of the social sciences who has been more influential. The affinity between capitalism and protestantism, the religious origins of the Western world, the force of charisma in religion as well as in politics, the all-embracing process of rationalization and the bureaucratic price of progress, the role of legitimacy and of violence as offsprings of leadership, the disenchantment of the modern world together with the never-ending power of religion, the antagonistic relation between intellectualism and eroticism—all these are key concepts which attest to the enduring fascination of Weber's thinking. The tremendous influence exerted by Max Weber was due not only to the power of his ideas but also to the fact that behind his theories one perceived a man with a marked character and a tragic destiny. However, for nearly 80 years our understanding of the life of Max Weber was dominated by the biography published in 1926 by his widow, Marianne Weber. The lack of a great Weber biography was one of the strangest and most glaring gaps in the literature of the social sciences. For various reasons the task was difficult, time and again attempts to write a new biography of Max Weber ended in failure. When Joachim Radkau's biography appeared in Germany in 2005 it caused a sensation. Based on an abundance of previously unknown sources and richly embedded in the German history of the time, this is the first fully comprehensive biography of Max Weber ever to appear. Radkau brings out in a way that no one has ever done before the intimate interrelations between Weber's thought and his life experience. He presents detailed revelations about the great enigmas of Weber's life: his suffering and erotic experiences, his fears and his desires, his creative power and his methods of work, as well as his religious experience and his relation to nature and to death. By understanding the great drama of his life we discover a new Max Weber, until now unknown in many respects, and at the same time we gain a new appreciation of his

work Joachim Radkau born in 1943 is Professor of Modern History at the Bielefeld University Germany His interest in Max Weber dates back nearly forty years when he worked together with the German American historian George W F Hallgarten Washington a refugee who left Germany in 1933 and who as a student listened to Weber s last lecture in summer 1920 Radkau s main works include Die deutsche Emigration in den USA 1971 Deutsche Industrie und Politik together with G W F Hallgarten 1974 Aufstieg und Krise der deutschen Atomwirtschaft 1983 Technik in Deutschland 1989 Das Zeitalter der Nervosität 1998 Natur und Macht Eine Weltgeschichte der Umwelt 2000

Ezra and Nehemiah David J. Shepherd, Christopher J. H. Wright, 2018-01-04 Two features especially distinguish the Two Horizons Old Testament Commentary series theological exegesis and theological reflection Both of these features are fully realized in this THOTC volume on Ezra and Nehemiah by David J Shepherd and Christopher J H Wright Following an introduction and concise verse by verse commentary on both books Shepherd and Wright highlight key ways in which these Old Testament texts continue to speak to us today They closely examine what Ezra and Nehemiah tell us about God and the people of Israel reflect practically on leadership and engage critically with those portions of the text such as Ezra s dissolution of the Judeans marriages with foreigners that present special problems for contemporary readers Offering deep theological insight throughout this volume will prove essential for students pastors and other Christian leaders seeking to engage in theological interpretation of Scripture

Centennial Ruminations on Max Weber's the Protestant Ethic and the Spirit of Capitalism Isaacs Mark, 2006-03-13 In 1904 1905 Max Weber published the sociological classic The Protestant Ethic and the Spirit of Capitalism In this book Weber argues that religion specifically ascetic Protestantism provided the essential social and cultural infrastructure that led to modern capitalism Weber s suggests that Protestantism has an affinity for capitalism Indeed something within Protestantism by accident or design creates the necessary preconditions that lead to the flowering of a just free and prosperous society At the same time Weber wonders if the economic backwardness of certain societies and regions of the world are somehow related to their religious affiliation Weber s century old thesis challenges the erroneous core assumptions of many secular humanists postmoderns Roman Catholic traditionalists and Islamists In view of the threat of the War on Terror and in the face of the inadequate response of secularist and post modern intellectuals it is vital that we understand and appreciate the profound paradigm shift that occurred during the sixteenth and seventeenth century that led to the unfolding of modern capitalism Despite a plethora of critics Max Weber s one hundred year old thesis still stands

Magnus Hirschfeld and the Quest for Sexual Freedom Elena Mancini, 2010-10-15 Against the late nineteenth century European trend of theoretical elaborations of negative homosexual stereotypes and the legal persecution of homosexuals German sexologist Magnus Hirschfeld 1868-1935 introduced a scientific and humanistic approach to homosexual emancipation Radical from the outset his pioneering theorizations of gender overturned the dual sex system and revealed the artificiality of gender Beyond destabilizing traditional concepts of masculinity and femininity and substantiating the naturalness of such phenomena as homosexual intersexed and transgendered identities Hirschfeld deployed his theories to serve as the basis of a steadfast and influential campaign for the decriminalization of homosexuality and an international sexual freedom movement that championed the principal causes of the women's movement and the rights of all sexual minorities Integrating the predominant cultural scientific and political discourses during Hirschfeld's lifetime Elena Mancini illuminates his cosmopolitan and classical liberal political and cultural stance showing him as more than a homosexual theorist and activist This fascinating study shows how his opposition to fascism and to all forms of sexual and racial hierarchies makes him a humanist for our times and an inspiration for those who strive for social and political inclusion and tolerance
