American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting s authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what s the real thing and what is spurious **A History of the Four Georges (and of William IV)** McCarthy,1890 **The Ancient World from the Earliest Times to 800 A.D.** Willis Mason West,1904 *The Gentleman's Magazine* ,1896 <u>The National Druggist</u> ,1916 <u>Essays</u> Edward Slack,1893 **Plutarch's Lives, tr., with notes and a life of Plutarch, by A.
