## **German Problem Reconsidered:**

*The German Problem Reconsidered: Germany and the World Order 1870 to the Present* David Calleo, 1978-09-29 In this provocative book David Calleo surveys German history not to present new material but to look afresh at the old He argues that recent explanations for Germany's external conflicts have focused on flaws in the country's traditional political institutions and culture These German centred explanations are convenient Calleo notes for they tend to exonerate others from their responsibilities in bringing about two world wars namely the American and Russian hegemonies in Europe As a result of this approach the big questions in German history are still answered with the ageing clichés of a generation ago despite the proliferation of German historical studies Throughout Professor Calleo examines with some scepticism the concept of Germany's uniqueness and its consequences In effect his study stresses the continuing relevance of traditional issues among the Western states This book he asserts should be regarded as a modest dissent from the prevailing view that history either began or ended in 1945

*The Civic Foundations of Fascism in Europe* Dylan Riley, 2019-01-15 Drawing on a Gramscian theoretical perspective and developing a systematic comparative approach *The Civic Foundations of Fascism in Europe* challenges the received Tocquevillian consensus on authoritarianism by arguing that fascist regimes just like mass democracies depended on well organised rather than weak and atomised civil societies In making this argument the book focuses on three crucial cases of interwar authoritarianism Italy Spain and Romania selected because they are all counterintuitive from the perspective of established explanations while usefully demonstrating the range of fascist outcomes in interwar Europe *Civic Foundations* argues that in all three cases fascism emerged because of the rapid development of voluntary associations combined with weakly developed political parties among the dominant class thus creating a crisis of hegemony Riley then traces the specific form that this crisis took depending on the form of civil society developed autonomous as in Italy elite dominated as in Spain or state dominated as in Romania in the nineteenth century
