treatment Appointments with psychiatrists psychologists mental health support groups obtaining required blood work from the lab filling pharmacy prescriptions going to church reading literature and praying meditating Also common is doing volunteer work helping friends and family with tasks and listening to them when they are troubled These activities give me positive thoughts that I am contributing to society and help keep me away from the negativity that has been a hallmark of my mental illness Thus it has become a life that I truly believe is one worth living In the early stages of recovery the late 1990s I did not share this view But I survived those tumultuous days and have now entered into an expansive place where peace even joy is a common experience The psychiatric and psychological treatments that have made this possible cost my mom Gwen a lot of money Although I have been able to remove this burden from her more recently It occurred to me that if I could write a book delineating the various aspects of my treatment program I could share these helpful concepts with others virtually for free That is the spirit in which this book is published and I hope you can utilize it for increased mental health and well being
