## **Hegemony A Realist Analysis:**

*Hegemony* Jonathan Joseph, 2002 *Hegemony A Realist Analysis* is a new and original approach to this important concept. It presents a theoretical history of the use of hegemony in a range of work starting with a discussion of Gramsci and Russian Marxism and going on to look at more recent applications. It examines the current debates and discusses the new direction to Marx made by Jacques Derrida before outlining a critical realist Marxist alternative. This book employs critical realist philosophy in an explanatory way to help clarify the concept of hegemony and its relation to societal processes. This work contributes to recent debates in social science and political philosophy developing both the concept of hegemony itself and the work of critical realism.

**Hegemony** Jonathan Joseph, 2002      **Critical Methods in Terrorism Studies** Priya Dixit, Jacob L. Stump, 2015-06-26 This book shows how to use a range of critical approaches to conduct research on terrorism. Featuring the work of researchers who have already utilized these methods to study terrorism, it includes a diverse range of critical methodological approaches including discourse analysis, feminist, postcolonial, ethnographic, critical theory, and visual analysis of terrorism. The main objectives of the book are to assist researchers in adopting and applying various critical approaches to the study of terrorism. This goal is achieved by bringing together a number of different scholars working on the topic of terrorism from a range of non-variables based approaches. Their individual chapters discuss explicitly the research methods used and methodological commitments made by the authors while also illustrating the application of their particular critical perspective to the topic of terrorism. The authors of each chapter will discuss: 1) why they chose their specific critical method, 2) how they justified their methodological stance, 3) how they conduct their research, 4) and finally an example of the research. This book will be essential reading for students of terrorism studies and critical terrorism studies and highly recommended for students of political violence, security studies, and IR.

*The Battle for Hearts and Minds in the High North* Mikael Nilsson, 2016-09-07 Mikael Nilsson offers a detailed and groundbreaking analysis of how the United States Information Agency (USIA) conducted its wide-ranging propaganda campaign in Sweden during the Cold War (1952-1969). The USIA placed propaganda in the Swedish press, radio, and television, as well as in schools and universities, and established connections to labour leaders, government officials, and journalists. The book also details how the U.S. military financed research at Swedish universities. Nilsson shows how Swedish journalists, scientists, and government officials assisted the USIA in its propaganda efforts, i.e., co-produced U.S. hegemony in Sweden. The book highlights both the width and the limits of USIA's propaganda and also relates this theme to Swedish security policy and the secret military cooperation between Sweden and the United States.

**The Elgar Companion to Antonio Gramsci** William K. Carroll, 2024-01-18 Affirming Antonio Gramsci's continuing influence, this adroitly cultivated Companion offers a comprehensive overview of Gramsci's contributions to the interdisciplinary fields of critical social science, social and political thought, economics, and emancipatory politics. Within the tradition of historical materialism, it explores the continuing impact of Gramscian perspectives in the present day.
