*Like Sound Through Water* Karen J. Foli, Edward M. Hallowell, 2002-03-07 Ben was a bright happy little boy Yet he was easily distracted he wouldn't make eye contact and he couldn't comprehend the simplest things said to him At age three he still hadn't started talking Finally Karen Foli knew she had to act and she took her son to a speech and hearing

clinic What the clinicians reported chilled her Ben's speech and language were delayed by one to two years Testing results and speech therapists suggested problems that included the words probably retarded and perhaps autistic But Karen trusting her mother's intuition knew that Ben was intelligent and that he was frustrated by his inability to communicate so she continued to try to help her son She discovered that he possessed the hallmarks of auditory processing disorder the aural equivalent of dyslexia Like Sound Through Water is the story of Karen's struggle to get Ben the help he needed to learn the most basic skill of all to communicate with the world She ran the gauntlet of medical disbelievers and pediatric therapists who refused to understand the very new findings of auditory processing disorder Even her husband a psychiatrist specializing in children's afflictions had never heard of APD Despite this he kept a steadfast faith in his son Now after years of intensive treatment for APD Ben is an academically successful hardworking little boy with a bright future to look forward to Like Sound Through Water is a testament to a mother's love and her devotion to her son's care it is also an instructive journey for those who are discovering the world of APD and a guidebook to negotiating the land mines of its treatment Above all it is a beautifully written tale of hope and optimism
