

HOW TO WRITE A RESEARCH PAPER

What is a Research Paper?

A research paper is a piece of academic writing, consisting of analysis, interpretation, and argument-based research. In comparison to essays, research papers are far more detailed. They don't only focus on your writing skills, but your research skills as well, hence the name 'research paper'. When writing a research paper, you don't just share your opinion on the matter, but also include a lot of factual information including any relevant sources.

4 STEPS FOR WRITING A RESEARCH PAPER

Step 1 - Choose and/or Understand Your Topic

Before starting to write your research paper, it's important that you understand what it is exactly that you are writing about. If you were given the great opportunity of being able to pick your own topic to write about, it may be a good idea to choose something that you know you are comfortable to talk about for a long period of time, something that you may even consider yourself to be passionate about.

Step 2 - Conduct Research

Now that you are comfortable with your topic, it's time to do the research. If you're struggling with what exactly you need to research, just think of these five key questions and try to use as many as you can in your research paper: what? why? when? where? and, how? Write down as much information as you can but make sure that your notes are clear and well organised, as this will make putting everything together in the end a lot easier.

Try to find any information on the topic that most people tend to ignore, this may add uniqueness to your paper which is excellent as you want to stand out. Are there any strong debates revolving around your topic, what are they? And why are they so strong? Feel free to share your own personal opinion to the topic, if you have a unique opinion that's even better. Have there been any recent changes to your topic?

Step 3 - Create a draft or as Many as You Need

As many of us have learnt in life, practise makes perfect. After gathering up as much information surrounding your topic as possible, attempt a first draft. Create what your research paper will roughly look like when it's completed. Don't be too concerned about it making sense 100% or looking perfect and having correct spellings and grammar, this is just a draft. You will have to opportunity to develop it later on.

Make sure your draft includes everything you want to include on your research paper, you're able to use or create a research paper outline to help you with this before you start. Make sure everything is in correct order and clear, if you're not too sure don't focus on the introduction for now. Finally, make sure your paragraphs are correctly written. Each paragraph should focus on one idea at a time, in order to be clear and organised for the reader.

Step 4 - Create Your Final Product

Once you're happy with your previous draft, it's finally time to write the actual thing.

Remember to start with a good introduction, here is where you should try to answer the 'what? why? and how?' questions, in order to properly introduce your topic to the reader. Follow up with a well detailed body and text, make sure your paragraphs are organised and you're being clear on the subject. Using an outline for this part, will be extremely helpful if you're stuck. Finally, end with a conclusion. You don't want to end your paper with any questions unanswered or with new information you won't be able to discuss, you want to give the reader a sense of finality.

RESEARCH PAPER EXAMPLE

Introduction

{What is COVID19? What place is most affected and which one is the least affected, according to cases? What do the statistics show?}

Paragraph 1: The dangers of COVID19

{What are the symptoms and time-frame of the virus? Is there a risk of death, according to statistics? How does COVID19 spread?}

Paragraph 2: How to prevent COVID19 and why are there doubts?

{How are the procedures put in place helping to prevent COVID19? How does this change throughout the globe? Why do people believe this virus isn't a real thing and what are the debates surrounding this subject?}

Paragraph 3: How are the protests affecting the cases?

{Where have there been protests and what affect did it have on that specific region?}

Paragraph 4: COVID19 and other diseases

{How are the dangers of COVID19 linked to other diseases? How can COVID19 lead to other diseases and what are they? What do the statistics of those with other diseases who passed away after contracting COVID19 show?}

Conclusion

{Summarise all the different arguments about COVID19, as well as all the figures you have presented in your research paper. Conclude a statement based on the information you have gathered and share which side you believe is right.}

Help I Have To Write A Paper

Cora L. Robey, Sarah E. Kreps, Helen M. Maloney

Help I Have To Write A Paper:

A Manual for Writers of Research Papers, Theses, and Dissertations, Ninth Edition Kate L. Turabian, 2018-04-27

When Kate L. Turabian first put her famous guidelines to paper she could hardly have imagined the world in which today's students would be conducting research. Yet while the ways in which we research and compose papers may have changed, the fundamentals remain the same: writers need to have a strong research question, construct an evidence-based argument, cite their sources, and structure their work in a logical way. *A Manual for Writers of Research Papers, Theses, and Dissertations*, also known as Turabian, remains one of the most popular books for writers because of its timeless focus on achieving these goals. This new edition filters decades of expertise into modern standards. While previous editions incorporated digital forms of research and writing, this edition goes even further to build information literacy, recognizing that most students will be doing their work largely or entirely online and on screens. Chapters include updated advice on finding, evaluating, and citing a wide range of digital sources and also recognize the evolving use of software for citation management, graphics, and paper format and submission. The ninth edition is fully aligned with the recently released Chicago Manual of Style 17th edition, as well as with the latest edition of *The Craft of Research*. Teachers and users of the previous editions will recognize the familiar three-part structure. Part 1 covers every step of the research and writing process, including drafting and revising. Part 2 offers a comprehensive guide to Chicago's two methods of source citation: notes/bibliography and author-date. Part 3 gets into matters of editorial style and the correct way to present quotations and visual material. *A Manual for Writers* also covers an issue familiar to writers of all levels: how to conquer the fear of tackling a major writing project. Through eight decades and millions of copies, *A Manual for Writers* has helped generations shape their ideas into compelling research papers. This new edition will continue to be the gold standard for college and graduate students in virtually all academic disciplines. Bestselling, trusted, and time-tested advice for writing research papers. The best interpretation of Chicago style for higher education students and researchers. Definitive, clear, and easy to read, with plenty of examples. Shows how to compose a strong research question, construct an evidence-based argument, cite sources, and structure work in a logical way. Essential for anyone interested in learning about research. Everything any student or teacher needs to know concerning paper writing.

Quantitative and Applied Research Methodology in Economics Niranjana Devkota, Sushanta Kumar Mahapatra, 2025-06-06

This book is an illustrative and comprehensive guide designed to help readers understand and navigate the complex world of academic writing and research in economics. Written by experienced researchers, this book offers theoretical and practical insights into the research process. It provides an understanding of the foundations of the research process, like research design, methodology, problem definition, data collection, and analysis, among others. The authors also share insights into the process of preparing, proofreading, and publishing academic papers. With their experience in the field of academic research, this book provides practical examples and step-by-step guidance to assist in research-related issues. The section on how

to prepare and publish academic papers is a must read for students and early career researchers as it offers valuable guidance on how to succeed in the highly competitive world of academic publishing With its clear and concise writing this book will be an indispensable resource for undergraduate and postgraduate economics students teachers independent readers and early career researchers as well as those seeking a deeper understanding of research methodology in economics

Foundational Skills for Writing Melanie Meehan, Maggie Beattie Roberts, 2026-02-03 Strengthen the foundational skills that set students up for writing success Writing is more than putting words down on paper it s a tool for thinking and learning a vehicle for expression and connection Yet writing instruction has often received less attention than reading even though it s just as complex In fact writing is one of the most complex tasks the brain coordinates drawing simultaneously on language skills executive functions and motor processes Foundational Skills for Writing tackles that complexity by offering evidence based methods purposeful strategies and playful approaches teachers can use to nurture essential writing skills By supporting educators in developing the cognitive motor and language foundations of writing this book helps students succeed academically express themselves authentically and connect meaningfully with the world Drawing from brain based research and the science of writing this book provides Clear explanations of each foundational writing skill including executive functions oral language motor skills handwriting spelling and sentence construction Practical connections to neurological research on the writing brain and how writing skills develop Strategies lessons and routines that strengthen writing foundations during busy school days Instructional activities to introduce reinforce and review foundational writing skills across primary elementary and middle school classrooms skills that support growth in every area of literacy Vetted tools authentic examples and practical scaffolds making it a read today teach tomorrow resource for immediate classroom impact Educators will gain the knowledge and tools to nurture young writers growth support them through challenges and build their confidence and competence **Year Book** ,1924 **The Writer** ,1887 The oldest magazine for literary workers

College Success for Students with Disabilities Irene Ingersoll, 2016-03-01 The demanding workload and fast pace of college often overwhelm students Without access to the right resources many of the three million U S college students with disabilities fail or drop out at a much higher rate than their peers This guide helps students parents counselors and psychologists find the appropriate resources and accommodations to help students with disabilities successfully transition to college The author explains Americans with Disabilities Act laws and outlines steps for requesting and implementing college staff classroom and testing accommodations Student testimonies are included advising on which assistive technologies and resources have worked to achieve academic success National Lithographer ,1923 Improvement of Spelling
