Fire At Sea:

Engineering ,1875 The Secret War on the United States in 1915 Heribert von Feilitzsch,2015-01-01 The Secret War Council Germany s spy organization in New York received orders from Berlin to stop the flow of munitions through terrorism in January 1915 German agents in the U S firebombed freighters on the high seas incited labor unrest fomented troubles along the Mexican American border and damaged or destroyed dozens of American factories and logistics installations The German secret war against the United States in 1915 its discovery and publication combined with the disastrous sinking of the Lusitania in May of that year did much to prepare the American public to finally accept joining the Entente powers against Germany in 1917 This is the story of a group of German agents in the United States who executed this mission

Perils Of The Atlantic William Flayhart,2003-05-27 Perils of the Atlantic captures the stories of a number of vessels that experienced adventure on the high seas from the tragic loss of the liner Arctic in 1854 to the swift sinking of the Italian Andrea Doria in 1956 *Fighting the Great War at Sea* Norman Friedman,2014-10-22 The overriding image of the First World War is the bloody stalemate of the Western Front but although much of the action did occur on land the overall shape of the war _ even the inevitability of British participation _ arose out of its maritime character It was essentially a struggle about access to worldwide resources most clearly seen in the desperate German attempts to deal with the American industrial threat which ultimately levered the United States into the war and thus a consequence of British sea control rn This radical new book concentrates on the way in which each side tried to use or deny the sea to the other and in so doing it describes rapid wartime changes not only in ship and weapon technology but also in the way naval warfare was envisaged and fought Combat produced many surprises some like the impact of the mine and torpedo are familiar but this book also brings to light many previously unexplored subjects like creative new tactical practices and improved command and control rn The contrast between expectation and reality had enormous consequences not only for the course of the war but also for the way navies developed afterwards This book melds strategic technical and tactical aspects to reveal the First World War from a fresh perspective but also demonstrates how its perceived lessons dominated the way navies prepared for the Second

The Coastguard, Emergency Towing Vessels and the Maritime Incident Response Group Great Britain: Parliament: House of Commons: Transport Committee,2011-06-23 Under current proposals the Maritime Coastguard Agency plans to close ten of the existing 14 Maritime Rescue Coordination Centres and to leave three that remain open on a 24 hour basis and five that will operate in daylight hours only The Transport Committee found little support for the measures and has no confidence that under these proposals the Coastguard will in future be able to respond to emergencies at sea as well as they do now let alone in a more effective way The Committee is not convinced by the Government s claim that technology can at present replace local knowledge Serious concerns were raised that the safety of people at sea on cliffs and beaches will be jeopardised if the proposals proceed in their current form Ministers must issue revised proposals for further consultation The

Committee also strongly condemns the Government's cost cutting decision to withdraw funding for the four Emergency Towing Vessels ETVs stationed around the UK coast large tugs that intercept disabled ships to prevent environmental pollution disasters The Transport Committee also criticises proposals to completely remove government funding for the Maritime Incident Response group MIRG a national fire fighting at sea capability Ministers should instead adopt a slimmed down MIRG which is more cost effective than the present arrangement Lastly the Committee records its disappointment that Mike Penning MP Minister for Shipping instructed regular coastguards not to give oral evidence to the committee on the basis that they were junior civil servants
